BELLEFONTE, PA., THURSDAY MORNING, SEPTEMBER 30, 1897.

NO. 38

BIOGRAPHICAL SKETCHES

Of the Professors of the Boalsburg Academy

BEGINNING 1836, ENDING 1892.

Through the Kindness of Mrs. Sophia Hall, of Wilmington, Delaware, We Received This Information.

SOME OF OUR CITIZENS MENTIONED.

As we stated a few weeks ago that we would give an account and a short sketch of the lives of some of the old professors of the Boalsburg Academy, we will do so. But before beginning we would like to thank Mrs. Sophia Hall, nee Miss Sophia Keller, for her kindness in assisting us in securing the information. The first one we will mention is

REV. DAVID M'KINNEY, D. D.

The Rev. David M'Kinney was a man of sterling qualities and strong personality. In 1834 he succeeded the Rev. Wm. Stewart as pastor of some Presbyterian missions in Pennsylvania, and made his home in Boalsburg.

He built the house now occupied by Mrs. E. W. Fisher of that place. In those days the largest salary received by any Presbyterian clergyman in Centre county was six hundred dollars (\$600), paid to the Rev. Dr. Linn, of Bellefonte. The majority of the clergy receiving \$300 or \$400. Many of them therefore who had large families and did not possess a private income were off times obliged to eke out their slender stipends by other methods. Whether this was necessary in Dr. M'Kinney's case we do not know. We do know, however, that in the year 1836 he established in Boalsburg a classical school known as "The M'Kinney and Betts Academy." The school was first held in Mr. M'Kinney's own home, but later in an old house—long since removed—in the East end of the village. He was assisted in his work by Revs. Meers, Betts and Williamson and Prof. William Waring—now of Tyrone, Pa. The school continued in successful operation until 1841.

In that year Dr. M'Kinney received a call from the Hollidaysburg Presbyterian church, which call he accepted and removed with his family to that place. The Academy passed into other hands and after a desultory existence for a few years ceased until 1852.

For particulars regarding Dr. M'Kinney's life after leaving Boalsburg, see late issue of "The Huntingdon Presbytery."

REV. FREDERICK BETTS.

Associated with the Rev. David M'Kinney in the Boalsburg Academy was the Rev. Frederick Betts. While connected with this school, he, for a short time, also supplied the Presbyterian congregation of Curwensville and Clearfield.

In October, 1840, he accepted the call to become the permanent pastor of these congregations and removed to Clearfield, Pa. A few years later he was induced to spend a winter in the South with a view to restoring his failing health, but died while there.

REV. JAMES G. AUSTIN, A. M.—1852-'57.

In 1852 there came to Boalsburg a small, slight man who organized or re-organized the Boalsburg Academy and won for it a name which never lost its lustre. That man was James G. Austin. He was a scholar in every sense of the term, and under his administration the Boalsburg Academy first became noted as one of the finest classical schools in the country. As has been well said "from its halls went forth many bright, strong and good men"—men who made themselves felt in the community wherein they lived and labored. It was mainly due to the influence Mr. Austin exerted that the Academy building was erected in 1853 by a stock company. The lower portion being used as a house of worship by "The United Presbyterians." Rev. Austin officiating as their pastor.

Mr. Austin remained in charge of the school until 1857. He resided for a number of years in the Western States. Later he removed to Tyrone, Pa., where he died March 22nd, 1893, aged 82 years.

A large and handsome granite monument marks his grave.

PROF. THEOPHILUS WEAVER.

Theophilus Weaver, A. M., was at one time a student of the Pine Grove Academy, going from there to Washington and Jefferson College, from which he was graduated.

In the winter of 1857-'58 he took charge of the Boalsburg Academy. Later he became principal of the Pine Grove Academy. Afterwards he lived at Harrisburg where he died a few years ago.

ABRAM S. GERHARD, M. D.

Abram S. Gerhard graduated from

Franklin and Marshall College June, 1863. He was a warm friend and class-mate of Dr. D. M. Wolfe, and through that friendship became his assistant during the winter and summer of 1864, in the Boalsburg Academy. Among other classes of which he had charge was that of Botany—a study to which he was devoted and in which he excelled. It was no doubt due to the absorbing love he had for, and close application he gave to this study that afterwards won fame for him as the first discoverer of chestnut leaves as a specific for whooping cough.

In the fall of 1864 Prof. Gerhard entered the University of Pennsylvania, Philadelphia, from which institution he was graduated with honors and received his medical degree. He was induced by friends to make Philadelphia his home and soon acquired a large and lucrative practice. He was one of the originators of the Medical-Chirurgical University and occupied in turn every chair in that institution.

At the time of his death he was the only live member of the original faculty. He was a man of fine mind and literary ability. A brilliant musician, he was an ardent admirer of the great classical composers.

His death was regretted as a common loss.

PROF. JOSEPH PETERS.

During the winter of 1872-'73 Joseph Peters Esq. had charge of the Boalsburg Academy. The following spring he removed with his family to St. Joseph, Missouri. There he began the practice of his profession—that of the law, having been admitted as a member of the Bellefonte Bar Aug. 25 1873—which he successfully pursued until his death some few years ago.

REV. HENRY KELLER.

Among the many "bright boys" of the Boalsburg Academy, was one beloved by all. Among the students his pet nickname was "Thomas," for like a certain disciple of old, he liked to see and know and understand things before he would fully believe and accept them. But in spite of his incredulity Henry Keller was the universal favorite. Possessed of fine mental qualities and studious habits, he made rapid progress. He was carefully prepared for college—under the Rev. George W. Leisher—entering the Sophomore class of Franklin and Marshall, Lancaster 1871—graduating in 1874.

He then pursued a Theological course at the General Seminary of the Reformed Church—graduating in 1877. During that winter and the following summer he took charge of the Boalsburg Academy, resigning the same to take charge of some Missionary work—of the Reformed church in Iowa. The rigorous climate greatly impaired his not robust constitution, and planted the fatal germ of consumption. After repeated attacks of bronchitis and consequent loss of voice, he was compelled to return home.

Finding his health too shattered to endure the severe strain of clerical work, he obtained permission from the West Susquehanna Classis to pursue some secular calling. He chose that of the law, and while preparing for it, he in 1882 again for a short time took charge of the Academy in Boalsburg. He was admitted to the Bellefonte Bar in 1883. His many friends fondly hoped that a bright future was yet before him, but it was not realized. A few successful years in his new vocation were granted him, and then "His sun set, while it was yet noon."

PROF. PHILIP VENODA.

Prof. Philip Venoda, a graduate of Franklin and Marshall College, Lancaster, Pa. held for a short time the position as Principal of the Boalsburg Academy. After leaving there he read law and was admitted to the Bellefonte Bar, Aug. 22, 1887, when failing health prevented his following his chosen profession. He died at Zion, Pa.

Bellefonte Excited.

Wed. morning about half-past nine Bellefonte was thrown into excitement by the blowing of the fire whistle, which told us that a fire was doing some damage in our town. Of course, we followed the crowd and were taken up on Lamb street, and there found that the double house belonging to Mrs. Mary Blanchard had taken fire. Quite a large hole was burned in the roof and garret floor, but with the assistance of some active workmen near the house the fire was quickly put out.

The one side of the house is occupied by ex-Sheriff Miles Walker and family, but the side in which the fire occurred was unoccupied. It is thought that the fire originated from burning rubbish in an adjoining lot.

TOOK GOD'S NAME IN VAIN

The Story of the Man Who Shot Into the Heavens Confirmed.

WAS STRICKEN DUMB FOR BLASPHEMY

Dr. O. W. McEntire, of Howard, Received Two Letters From a Personal Acquaintance at Instant, Pa., Which Gives the Latest Version of the Story.

A LESSON TO BE TAKEN TO HEART.

The story sent out from Instant, Pa., to the effect that a man had been turned to stone there for threatening to shoot God, has created quite a sensation and has been a subject of dispute for some time past. Dr. O. W. McEntire, of Howard desiring to satisfy himself, wrote to the postmaster at Instant, in regard to the matter and received the two following letters in answer. There must be something in this if these letters are to be believed, and as they are from a responsible party it seems very hard to doubt them. Thinking they might be of interest to our readers we secured the Doctor's consent to allow us to publish them. We might add that Dr. McEntire is personally acquainted with assistant postmaster A. C. Quigley and can vouch for his reliability. The letters are as follows:

INSTANT PA., Sept. 21, '97.
O. W. McEntire, M. D.
Howard, Pa.

Dear Doctor:—Your letter the 18th., inquiring as to the truth of the several different reports running through the newspapers of your section of the state, concerning a farmer being turned into stone. I will say in reply that a man by the name of Decker, living near here is reported to have had an experience of that kind, but was in town yesterday looking very pale and scarcely able to walk. He denies the allegation, but there are different people here who positively claim to have seen him when he was in the position reported by the papers. These people say that on account of some mysterious influence they were unable to get close enough to make identification complete, but they were positive he was the man. On the contrary Decker is very quiet on the subject and absolutely refuses to discuss it. One thing is very apparent that before this was supposed to have happened he was a very profane man, but now he is altogether changed, so much so, that any one having known him before would not now recognize him at all. Trusting this explanation will gratify your curiosity, I remain

Yours respectfully,
A. C. Quigley Asst. P. M.

INSTANT PA., Sept. 22, '97
O. W. McEntire M. D.
Howard, Pa.

Dear Doctor:—As you have received my answer to your letter of the 18 inst. I have since learned more concerning the matter you wrote about. Decker has finally admitted that part of the matter said of him is true. In respect to making the threat and getting his gun and going into the orchard and pointing to the Heavens he says when he had the gun in position a feeling came over him that would be impossible to describe. The muscles of his whole body seemed to be paralyzed. He could not change his position. He tried to call for some one to help him, but could make no sound. There was but one person at the house, that being but a small boy, and he noticing his position, went toward him but could not get within at least one hundred feet of him.

In regard to any one trying to build a shed over him he says that no attempt was made. He was in the position two nights and one day. He says that as long as he lives he will never utter another oath but will try to serve his MAKER to the best of his ability from this time on. He says: "It was a direct warning from the other world."

You can give this publication in your papers, Doctor, as it will be an accommodation to us. Our mail is literally overrun with inquiries.

Very truly yours,
A. C. Quigley
Asst. P. M.

Coming at Last.

We hear on excellent authority that work on the projected railway between Bellefonte and Clearfield will be begun by the first of the coming month. We hope this is true, but if it is some signs of it should be seen soon.—Phillipsburg Ledger.

—Bellefonte Republican and New York Tribune one year for \$1.50 in advance.

RESOLUTIONS OF RESPECT

Adopted by the Trustees of the Presbyterian Church.

WHEREAS, W. T. Meyer, organist and conductor of the choir in the Presbyterian Church of Bellefonte, purposes to move away from the town, and has therefore found it necessary to sever the relations which have existed between him, the church, and the choir for the last four years or more, therefore—

Resolved FIRST: That it is with much regret that the Trustees of the church are under the necessity of accepting the resignation of W. T. Meyer as organist and conductor of the choir in the Presbyterian Church of Bellefonte, and in doing so they desire to place upon the records of the church their appreciation of his services.

SECOND: That in Mr. Meyer the church has had an accomplished organist, the choir an efficient agreeable and able conductor, careful in the selection of his music always prompt and faithful in attending choir meetings and making preparations for the services of the church, and while regretting that he has found it necessary to separate himself from our church we commend him as a master musician abundantly able to conduct the choir of any church or lead any musical organization.

By order of the Board of Trustees—The above complimentary preamble and resolutions were adopted by the Board of Trustees of the Presbyterian church at a meeting held early in September, strong as they are, they but fairly express the feeling and respect in which Mr. Meyer was held as organist in the church. But for the fact that he was about to leave the town his purpose to resign would not have been considered.

Mr. Meyer's resignation made it necessary for the trustees of the church to engage another person as organist in the church.

At a meeting of the Board recently held Miss Irma Smith, was engaged as organist. For two Sabbaths she has presided at the organ and the congregation is entirely satisfied with her work and pleased with the selection made by the board of trustees. The attendance on the part of the choir has been large and the singing has never been better.

If attendance to duty diligence and perseverance in preparation, count for anything we are sure Miss Smith will succeed to the entire satisfaction of the congregation.

Resolutions of Respect for a Dead Comrade.

The following resolutions of respect were passed at the last meeting of Wm. I. Furst Post, No. 419, G. A. R., of Stormstown, in memory of a departed comrade, Simon Sellers. They were as follows:

HEADQUARTERS OF SERGT. WM. I. FURST POST, No. 419, G. A. R., STORMSTOWN:

WHEREAS, It has pleased Almighty God to again visit our Post and remove by death another comrade, Simon Sellers;

Resolved, That we bow in humble submission to Him who knoweth all things.

Resolved, That we tender to the family our heartfelt sympathy in this their hour of bereavement, and commend them to look to Him from whom we derive every good and perfect gift.

Resolved, That in the death of our comrade our Post has lost a worthy member, one who was always at his post, and his family a kind and loving husband and father.

Resolved, That these resolutions be recorded on the minutes of the Post, a copy sent to the family of the deceased, that they be published in our county papers, and our charter be draped for thirty days.

G. W. TONER,
WM. G. BIGELOW, } Com.
JOHN WARD,

Death of Bridget Howley. Bridget Howley, formerly of Bellefonte, died at Philadelphia, Monday, September 20th, 1897, aged 45 years. The funeral took place Wednesday morning at 8 o'clock from Charles Heimrich's residence, 1896 Carman street Stockton N. J. Mass was said at St. Joseph's church. Interment at St. Patrick's cemetery.

Baby Baptized.

Monday afternoon the little baby of Mr. and Mrs. Sidney Krumrine was baptized in the Episcopal church. As he was baptized he was named Charles Sidney Krumrine. His aunt, Miss Stella Bobbs of Williamsport, acted as Godmother.

NATIONAL GUARD INSPECTION

The Sheridan Troop Have the Highest Average at Brigade Camp.

COMPANY B'S HIGH RATING

It Stands Next to the Highest in the 5th Regiment—A Credit to Its Young Officers.

RESULTS OF THE INSPECTIONS

The reports of the inspection of National Guard at the recent brigade encampments, as filed at the Adjutant General's department, show the First, Second and Third Regiments of the First Brigade to lead in the general average. The former has a record of 97.45 and the latter 96.56. The Sheridan Troop, of the Second Brigade's department, show the First, Second and Third Regiments of the First Brigade to lead in the general average. The former has a record of 97.45 and the latter 96.56. Company C, of the First Regiment, scored the next highest point, 97.87, while every company in the regiment has credited to it a percentage of 97 or more.

The following shows the percentage of attendance at the inspections and the general average of the organizations of the Second Brigade:

TWO BELLEFONTE GIRLS WILL BE WED.

One to Marry in New York State and the Other in Washington State.

Tuesday Bellefonte lost two of its most charming and obliging young ladies. It does really seem to bad that the young men in our town can not look after these young ladies and see that they need not go away, to get married. Miss Blanche Johnson, daughter of Mr. and Mrs. Joel Johnson on Bishop street left Tuesday for Brooklyn New York, where she will be united in marriage to Mr. Walter Crosswhite, of that city.

Miss Johnson is a young lady of an excellent character and lovely disposition and for quite a long time was employed in the Keystone Gazette office, as one of there finest composers, after leaving the printing office she was engaged for a number of years in the telephone exchange. While in the latter place she won many friends. She marries a young man whose home was formally in Bellefonte, and who comes from one of the finest, and oldest families in Central Pennsylvania. Walter Crosswhite was at one time connected with this office and he was one of the finest composers in the county. He now holds a very responsible position as engineer in the large Y. M. C. A. building in Brooklyn New York. He met Miss Johnson in Philadelphia and on Wed. forenoon they were united in the happy bonds of matrimony. We wish this young couple all the success and happiness there is in married life. They will make there home in Brooklyn New York.

Miss Annie Furley, step-daughter of Mr. Edward Humes, left Wednesday morning for Brookville Pa. and to-day proceeded to Auburn, Washington state, where she will be married in a few weeks. Miss Annie is one of our prettiest and sweetest singers and during her short stay in Bellefonte has won many friends. A more complete account of these two weddings will be given later.

The Mendis Case.

Peter Mendis, the Italian rag picker, now confined in the county jail for the murder of James Maria, on the 7th of January, 1896, will be given a habeas corpus hearing this (Thursday) morning, Sept. 30th, at 10 o'clock. It will then be decided whether he can be held for trial. Mendis seems to be taking things coolly and is confident that the hearing will vindicate him.

The court will hear arguments for a new trial in the Cornely case October 5th.

Expelled for Hazing.

Two student have been expelled from Pennsylvania State College for hazing. Last year a strenuous effort was made to abolish the disgraceful practice, and the Freshman class joined with the Faculty. Resolutions were passed, setting forth that as long as they were in college the class of 1900 would do what they could to abolish hazing. To this end a committee was appointed to work with the Faculty. Last week two students were caught in the act of initiating a new man, and on being reported to the Faculty, were at once expelled.

THE PRESIDENT AT LENOX.

Greeted Cordially by Hundreds of Children at Pittsfield.

MR. MCKINLEY MAKES A SPEECH

Returns Thanks for the Generous Welcome Extended Him, Rejoices at the Friendship Existing in all Parts of the Land.

INCIDENTS OF A PLEASANT DAY

LENOX, Mass., September 24.—President and Mrs. McKinley, with other members of the party who for the past four days have been visiting in Adams, reached Lenox this afternoon. They left Adams at 12:30 and arrived at Pittsfield at 1:15. There was an immense crowd about the station at Pittsfield to meet them and the enthusiasm was unbounded. Cheer after cheer was given for the president and his wife when they appeared upon the platform. Hon. John Sloan, whose guest they will be until tomorrow noon, welcomed them and escorted Mr. and Mrs. McKinley to his own victoria. Mr. Sloan, with Mrs. W. B. Plunkett, wife of the president's host at Adams, then entered Mr. Sloan's buckboard. Two of Mr. Plunkett's drags, which had come from Adams, were driven to the platform and the other members of the party entered them. In the first drag were Miss McKinley and Miss McKenna, Secretary and Mrs. Alger, Mayor Walter, F. Hawkins, of Pittsfield; Attorney General McKenna and Mr. W. Plunkett.

The drive started at once and led through the business portion of the town. The crush of children around the carriage was tremendous and it was only by exercising the greatest skill that the driver escaped knocking many down. The carriage was stopped in front of the park, which was filled with a struggling mass of young Americans anxious to see the only president who ever came to their town. Major McKinley, as he said afterwards, never received such a joyous reception from the rising generation as he did at this time. The tremendous enthusiasm of the school children, with his well known love for children in general, were too much for the president and he arose in his carriage and made a short address.

The president said: "Mr. Mayor and fellow citizens: I desire to express my appreciation of the gracious welcome which you have given me as I journey through your city on my way to Lenox. One of the most gratifying conditions to be found to-day is that splendid feeling of amity and friendship and fraternity existing in all sections of our country. These boys and these girls whom I have seen around me in such vast numbers to-day in a little while must take upon themselves the great duty of citizenship. We have to-day a union, stronger and brighter and firmer than it ever was before and if these young people continue the life of morality and virtue practiced in their youth they will be prepared to carry forward this great nation to still greater glories. I thank you and bid you all good day."

When the Sloane house was reached the coaches were driven along the beautiful driveway and completely around the house, and the party were met at the door by Mrs. Sloane and Miss Evelyn Sloane and ushered into the spacious and luxuriously furnished reception room, where the ladies were given light refreshments and President McKinley spent a few minutes in warming himself at the open fire place.

Before long a closed carriage was taken for the links of the Lenox Golf club, where the president was just in time to greet the winner of the Lenox cup tournament, Mr. Arthur H. Fenn, of Aiken, S. C. As the president alighted from the carriage he was greeted by President W. D. Sloane, of the Lenox Golf club, and escorted to a large tent on the lawn. Here he held a short reception to the members of the club and the cottagers present and was introduced to Mr. Fenn and his wife.

At 8 o'clock the host, Hon. John Sloan, escorted Mrs. McKinley, led the way to the dining room. Immediately behind him were President McKinley and Mrs. Sloan.

Dinner occupied the time from 8 to 9 o'clock. The menu was very elaborate. Letters and telegrams of regret at their inability to attend were received during the day from Vice President Hobart, Secretary Bliss and Secretary Long.

Immediately after dinner the guests and their host and hostess adjourned to the reception room and received the cottagers who had been invited by Mr. Sloan to meet his guests.

The cottagers were introduced to President and Mrs. McKinley by the host and hostess assisted by Miss Evelyn Sloane. The reception was over at 10 o'clock, and after a short session of conversation the ladies and gentlemen of the party retired for the night.

Pill-Doed.

With nausea, big purgers, prejudiced people against pills generally. Dr. Agnew's Liver Pills are revolutionizing the pill demand—They're so pleasant and easy to take—the doses are small and so is the price—10 cents for 40 doses. Biliousness, sick headache, constipation dispelled. Work like a charm.—S.

Sold by J.N. & S. Krumrine.

OPINIONS BY REEDER.

The Deputy Attorney General Settles Two Tax Problems.

HARRISBURG, Sept. 23.—Deputy Attorney General Reeder has given Auditor General Mylin an opinion relative to the collection of mercantile tax from the Oil City Boiler works. The company has a branch office in Pittsburg, where orders are received, but has no store or warehouse of any kind in Allegheny county. A mercantile tax was assessed against the company in Allegheny county, and a suit has been commenced to enforce payment. The deputy attorney general says, in view of the fact that the company has no warehouse in Allegheny county it is not liable to the tax.

State Treasurer Haywood was also given an opinion by the deputy attorney general relative to the payment of collateral inheritance tax. William H. Hall, the register of Delaware county, wrote asking about the repayment of collateral inheritance tax paid by the estate of J. Lewis Crozer. He says that Crozer devised W. A. Stotesbury a farm situated in Kansas at a valuation of \$30,000. Upon this valuation a collateral inheritance tax was paid by the executors into the state treasury. Register Hall now requests that this money be refunded. The deputy attorney general says that under a decision of Chief Justice Paxson such a tax imposed on realty situated in another state transcends legislative power and cannot be enforced, and that the money ought to be refunded on proper proofs being presented.

The New Cuban Tariff.

WASHINGTON, Sept. 22.—By the new Cuban tariff law, recently gazetted at Madrid, the Spanish government retains discretion to apply an additional duty of 30 per cent. if American duties are construed to prejudice Spanish products.

The preamble also suppresses entirely the favored nation clause and provides that "as regards commercial treaties, it is decreed that all treaties or commercial conventions which affect the customs of the island must be special." The abolition of the favored nation clause is a marked departure from the old system, under which the United States or any other country could claim all the advantages given by treaty to any other country. Under the new plan each country can enjoy only such tariff advantages as are given by special treaty.

In the Beech Creek Coal Region.

The Patton Courier says: It is an unusual condition of affairs to find the miners of the Clearfield and Beech Creek regions at work when others are on strike, but this is accounted for by the fact that the scale of wages paid is the highest in any of the competitive districts. We do not speak of conditions, because while the scale of wages is 45 cents, at too many mines concessions have been made by the miners to such an extent that the coal does not cost 45 cents a ton for its digging and loading. However, these are exceptions, the rule being that full rate is paid at a large majority of the mines.

The week will show a slight falling off in output from what it has been for two months past, the falling off being on account of consumers realizing that there is now no longer any danger of a general strike in the Clearfield and Beech Creek regions. It would not surprise us if for some time to come the miners would make less than half time, the slackness continuing until the surplus stock of coal on hand is consumed.

Mix-up in Bicycle Race.

TAUNTON, Mass., Sept. 23.—There was a bad mix-up in the one mile open bicycle race at the Bristol County Fair to-day. Tom Butler crossed the tape first, with Major Taylor second and W. E. Brecker third. After the riders had finished Brecker wheeled up behind Taylor and grabbed him by the shoulder. The colored man was thrown to the ground. Becker choked him into a state of insensibility, and the police were obliged to interfere. It was fully fifteen minutes before Taylor recovered consciousness, and the crowd was very threatening toward Brecker. Brecker claimed that Taylor crowded him into the fence during the race. Becker was disqualified and the race was run over again, Tom Butler winning.

SHOOTING AFFRAY.

Frank Shupple, A PortAge Young Man, the Victim.

AN OLD GRUDGE THE CAUSE

Patrick Quinn, of South Fork, Fired Three Shots Into Shupple's Body with Terrible Effect, and then Gave Himself Up.

THE VICTIM HAS DISAPPEARED.

PORTAGE, Pa., Sept. 24.—Frank Shupple, a young man 24 years old, who resides in this place, was shot three times by Patrick Quinn, of South Fork, in the bar-room of Geo. Yeckley's hotel at Portage about 8:30 o'clock last evening. Quinn fired three shots into Shupple's body with murderous intent.

Quinn came over to Portage to visit his mother during the afternoon. While in the bar-room during the evening Shupple came in. There was an old grudge between the men and hostilities began on sight. The two men exchanged words, when Quinn drew a 32-calibre revolver from his pocket and fired three shots into Shupple's body. After the last shot Shupple threw up his hands and fell in a heap on the floor.

The few men who were in the bar-room rushed to the injured man, who, after a few efforts, rose to his feet and staggered out of the hotel, with all the appearances of being mortally wounded.

The spectators were so paralyzed by the occurrence that no one followed him, and as a consequence Shupple has not been seen since. A searching party was organized to look for him, but up to 9:00 o'clock he had not been found. It is supposed that he is lying somewhere near the hotel mortally wounded, or perhaps dead.

After the shooting Quinn gave himself up to the authorities and was taken on the night train to the Ebensburg jail. Both men were perfectly sober when the deed was committed.

Evangelical Church.

One of the most prosperous little churches in Bellefonte is the Evangelical. For a good many years this church had a hard time getting along; but when Rev. Mr. Zehner came here it seemed to begin to prosper, and from that time on has continued to do so. Rev. Mr. Goodling, a man who is always communing with his Master, is pastor of this church now and during the last year they have built a nice little parsonage. And now, so as to pay for this home for their pastor, they are having socials and festivals, and the good ladies of the church have organized a mite society and they are meeting with grand success. These ladies will hold a box social next Friday evening, and if you want to help a good cause along give them a share of your patronage.

A Girl's Essay on Boys.

Boys are men that have not got as big as their papas, and girls are women that will be ladies by and by. Man was made before woman. When God looked at Adam he said to Himself: "Well, I think I can do better if I try again." And he made Eve. God liked Eve better than Adam and so there have been more women than men. Boys are a trouble. They wear out everything but soap. If I had my way half the world would be girls and the rest dolls. My papa is so nice that I think he must have been a little girl when he was a little boy. Man was made on the seventh day he rested. Woman was then made, and she has never rested since."—Pittsfield, Mass., Sun.

A MAD STEER.

Creates a Panic on Altoona's Main Streets.

At Altoona Wednesday evening, the Tribune says, a wild Texas steer broke loose from a butcher's enclosure and made a mad rush through the principal streets. In its frenzied flight the maddened animal knocked down Expressman Frank Dibert. The bovine then made a plunge for a child, who was saved by a policeman throwing it aside from the path of the approaching steer. The policeman, however, was struck by the beast's horns and hurled to the ground, his trousers being torn to shreds. He was considerably bruised by the fall and suffered a painful gash from one of the beast's horns.

The animal then flew into the depot shed, causing a scattering of the people under the roof. Foreman Harry Geesey was treed behind one of the shed pillars for some time. The animal made a determined attempt to gore him, and desisted only when Mr. Geesey kicked it vigorously upon the snout with his boot. The steer then took a bee line up the track towards mail express, which was then running into the station. The engineer stopped the train and thus averted an accident. Tail up and head down the steer tore up through the railroad yard spreading terror along its route. At Sixteenth street it chased three railroaders up on the iron fence for safety, and just beyond the Seventeenth street bridge a couple of railroaders and operators did an exhibition mile for life. Between Seventeenth street and Twenty-fourth street the infuriated animal gave chase to a dozen people, all of whom were sperry enough afoot to escape injury. The steer ran on up the track as far as the Mill Run "dump," where an east bound freight train struck it and ground it to pieces, thus stopping forever its power to do harm.

One of Two Ways.

The bladder was created for one purpose, namely, a receptacle for the urine and as such it is not liable to any form of disease except by one of two ways. The first way is from imperfect action of the kidneys. The second way is from careless local treatment of other diseases.

GRIEF CAUSE.

Unhealthy urine from unhealthy kidneys is the chief cause of bladder troubles. So the womb, like the bladder, was created for one purpose, and if not doctored too much is not liable to weakness or disease, except in rare cases. It is situated back of and very close to the bladder, therefore any pain, disease or inconvenience manifested in the kidneys, back bladder or urinary passage is often, by mistake, attributed to female weakness or womb trouble of some sort. The error is easily made and may be as easily avoided. To find out correctly, get your urine aside for twenty-four hours, a sediment or settling indicates kidney or bladder trouble. The mild and the extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney and bladder remedy is soon realized. If you need a medicine you should have the best. At druggists fifty cents and one dollar. You may have same bottle and pamphlet, both sent free by mail. Mention REPUBLICAN and send your address to Dr. Kilmer & Co., Binghamton, N. Y., the proprietors of this preparation guarantee the genuineness of this offer.

Regulating the Sale of Cheese.

The law passed in the last State legislature, and which went into effect August 23, regulating the sale of certain kinds of cheese, known as filled cheese, may cause trouble unless grocers and others who sell it are careful. Some time ago fifteen samples were selected in as many grocery stores in Harrisburg, but of these only six were labelled according to law. Every seller who does not comply with the law is subject to a fine. The standard required for full cream cheese is thirty-two per cent. of butter fat. Only two of the fifteen samples came up to that test. There is no disposition on the part of the agricultural department to prosecute or unnecessarily harass dealers, but it is sending out these notes of warning that they may guard themselves against the neglect or the frauds of the manufacturers.

For Over Fifty Years.

Mrs. Winslow's Soothing Syrup has been used for over fifty years by millions of mothers for their children while teething, with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. It will relieve the poor little sufferer immediately. Sold by all druggists in all parts of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

Knorr-Wintersteen Case.

An order of court has been issued by Judge Ikeler, at Bloomsburg, for a two weeks' special session, commencing Tuesday, October 26, for which forty-eight traversers jurors have been summoned. The famous Knorr-Wintersteen dynamite case will be retried at this special term. Judge Ermentrout, of Reading, will preside during the second trial of the case he having notified Judge Ikeler to that effect.

Royal Bones Stolen.

Extraordinary discoveries have been made in Hungary with regard to the spoliation of the graves of the ancient kings. In 1869 the archaeologist, Koloman Henselmann, searched for the graves of these long dead rulers, which had been disturbed and partly destroyed by the Turks during their dominion there in the bishop of Stuhlweissenburg's garden. Stuhlweissenburg is the old coronation city. He found a number of stone coffins and was able from the inscriptions to ascertain that they were those of the old kings. He gave them to the care of the city authorities after copying the inscriptions and fastening tickets with them to each skull. The mayor seems to have put all the grisly treasures pell mell into five large packing cases and to have thrown the sarcophagi away. In 1872 the present mayor of Stuhlweissenburg learned that there were bones in the lot of the town hall. What was to be done with them? He examined the skulls and found what they were. He addressed himself to the chapter of Stuhlweissenburg and packing the cases were nailed up and placed in the vaults of the cathedral, and one of the deans was made responsible for them. He never seems to have trouble about them, however, and a drunken sexton became the real caretaker.

The kings to whom the bones and skulls belonged which are now in such a deplorable condition, or altogether missing, are St. Emerich, the son of St. Stephen, first king of Hungary; Kings Stephen, Koloman, Bela, Geiza II., Ladislas II., Stephen V., Bela II., Ladislas III., and several other princes of the Arpad line. There were also of the line of Anjou Queen Mary, wife of Robert Charles, her son and her husband, Kings Albert, Ulysses, Louis II. and John Zpolya, whose corpse Achmed Pasha had flung out of the vault in 1543.—London Daily News.

He Did.

A Kansas newspaper prints the following marriage ceremony that was delivered a short time ago: "Wilt thou take her for a pard, for better or for worse; to have to hold, to fondly guard till hauled off in a hearse? Wilt thou let her have her way, consult her many wishes; make the fire up every day and help her with the dishes? Wilt thou give her the 'stuff' her little purse will pack; buy a boa and a mug, and a little seal skin sague? Wilt thou comfort and support her father and mother, Aunt Jemima, Uncle John, three sisters and a brother?" And his face grew pale and blank, it was too late to jilt; as through the chapel floor he sank, he said, "I wilt."

"A good many questions have been settled these last few years. In all the debates in the House this past session, there was but one man who even mentioned the 'consumer,' and he was from Kentucky. In other years, if you could believe our debates, we had no population except 'consumers;' producers did not exist. Not a word did we have in the debates of this year about the need of low prices. We already had them, and mouths which used to start the echoes in wild longings for low prices were devising plans for raising prices."—Thomas B. Reed.

Anxiety About Governor Pingree.

DETROIT, Mich., Sept. 28.—Some of Gov. Pingree's friends are becoming uneasy as the time goes by and his whereabouts are not located. The Governor left Detroit two weeks ago, supposedly for a trip "down East," accompanied by Gen. Arthur L. Bresler and Col. Eli R. Sutton. Gen. Bresler has now returned to the city, saying that he has been in New York City for the past two weeks, and knows nothing of the Governor.

No two opinions regarding his disappearance agree. The only clew to his whereabouts is found in a dispatch from Curacao, West Indies, saying the Governor and Col. Sutton are figuring on securing a railroad concession from the Venezuelan government.

J. B. Howarth, one of Mr. Pingree's partners in the shoe business, says he does not know what the Governor is doing in South America, and many of his intimates think if he has gone South at all it is on a pleasure trip seeking a rest. Careful inquiry as to his whereabouts at the Governor's residence fails to elicit any information, but no positive alarm has yet been expressed by his family.

An Unprecedented Record.

CLEVELAND, O., Sept. 25.—From talks with iron ore dealers it is learned that the movement of ore from the upper lake mines this year will beat all records. It is now estimated that at least thirteen million tons will be marketed this season and next spring is likely to find all the docks clear. That would be unprecedented. Last year the stocks in the spring amounted to 3,000,000 tons. Ninety-five per cent. of the allotment of the ore association has already been sold and prices show a buoyancy under the heavy sales. It is believed the ore pool which existed prior to last spring will be re-organized next spring.

"A perfect type of the highest order of excellence in manufacture."

The Mahmunds Beaten.

SIMLA, Sept. 26.—The operations against the Mahmunds are proceeding satisfactorily. General Westmacott has completely demolished the headquarters of the Haddah Mullah in the village of Jarobi, blowing up all the fortifications.

While this was being done a body of Sepoys was caught in ambush in a defile and sharp fighting ensued. But the Sepoys succeeded in retiring with slight loss.

General Jeffreys reports that he had arranged an armistice of two days to enable the tribesmen to submit, which they appear anxious to do after the repeated beatings they have received.

A LOCAL PAINTER.

Drops His Paint Pot and Brush to Make a Few Remarks on Renovating.

This homily is for Bellefonte people. It is especially intended for them. If it reaches the ears of outsiders they have to thank the public press and Mr. Harry J. Williams of Water street. The gentleman is a painter, an authority on the action of turpentine, benzine and other dry oils in the painting process and on the human system. He is also an authority on the action of the old Quaker remedy.

The calling of a painter, under the best circumstances, is not an easy one on the back, and when delicate organs are inflamed and excited and become so tender that they actually throb with pain the occupation becomes so tiresome that many a painter has thrown down his brush in disgust and wished he would die. Mr. Williams says:

"The first trouble I had from my kidneys was from a fall while working on a building where the floor was only partly laid. I slipped and wrenched my back very severely when carrying a board. Ever since then I have had a weakness in the loins and at intervals it broke out into very severe attacks of excruciating pains. Often while at work, long before the close of the day, my back gave out and ached so I felt like giving up. The ingredients used in my business are hard on a good, sound pair of kidneys, but when you constantly inhale them, and they effect weak ones, the suffering is positively awful. I heard about Doan's Kidney Pills curing any disease of kidney complaint similar to mine and I thought I would try them as my trouble was really becoming serious. I got a box at F. Potts Green's Pharmacy and commenced to use it. They surprised me how soon they acted. I have taken no other medicine for some time and I can only attribute my cure to their action. You are at liberty to make these facts public."

For sale by all dealers. Price 50 cents. Sent by Foster Milburn Co., Buffalo, N. Y., sole agents for United States.

MRS. BURTON HARRISON has written a new novel of New York life, entitled "Good Americans," and it will appear in *The Century* during the coming year. Mrs. Harrison is thoroughly familiar with metropolitan society, and contemporaneous social types and tendencies are mirrored and described in the story.

The opening article of *McClure's Magazine* for October describes the rounding up of a great wild elephant herd in Siam, and the choosing out and bringing under control of such members of the herd as are required for the royal elephant stables. The article is very interestingly illustrated from photographs taken by the author.

Another notable article in this number is Mr. Bernard P. Grenfell's account of how he and his associate, Mr. A. S. Hunt, found the lately recovered manuscript of the "Sayings" of Christ. Since this is older by at least one hundred and fifty years than any other extant record of the life or words of Christ, everything relating to it is of interest.

More than notable, in this number, is a series of life masks of Jefferson, John Adams, Lafayette, Charles Carroll, and Madison, never before published, and until now scarcely known to exist. In reality and vividness they are truly wonderful; to look upon them is as if one sat face to face with the living, speaking man. They were taken about 1825 by the sculptor J. H. I. Browere, who had his own secret process.

Other features of the number are a description of a series of picturesque comparisons exhibiting the various points of greatness in "Greater New York," and some excellent short stories by Octave Thanet, Stephen Crane, and others.

THE S. S. McCURRY CO.

SMOTHERED TO DEATH.

Such was the Awful Fate That Overtook Five Miners.

SCRANTON, Pa., September 28.—Five men this afternoon met a horrible death from "Black damp," the after accumulation of a fire in Jermy No. 1 mine, near Redham. The dead are:

ISAAC WATKINS, fire boss, 55 years old, wife and one child, Redham.

WILLIAM TOMPKINS, company man, 22 years old, single, boarded with Watkins.

JOSEPH SMITH, company man, 34 years old, wife and one child, Mudtown.

JOHN GALLAGHER, company man, 42 years, wife and seven children, Minooka.

WILLIAM FRANKLIN, company man, 26 years old, wife, Redham.

The bodies of all but Watkins were discovered at 5.30 o'clock by a gang of men who went into the mine with supplies for combating the fire. At midnight the remains of Watkins had not been found. Since last Tuesday the fire had been raging in the mine. The men who lost their lives represented one "shift." They went on duty at 3 o'clock and nobody suspected their death until the discovery of the lifeless bodies. Not a man in the party survived to tell the story. In the case of each body the head pointed toward the shaft, indicating that they had groped and struggled toward the shaft and fresher air while suffocation was overtaking them. When the catastrophe was discovered, word was passed to the surface and the excitement was intense. Gangs of men were lowered down the mine carriage and at 6.30 o'clock all the bodies excepting that of the fire boss had been brought up by one to the surface. They were found from one to three rods apart. The scene at the head of the shaft was tragic for a time, while wives, mothers and children in frenzy fought for a sight of the bodies in the possibility of learning that more than the actual number had lost their lives.

The colliery employed about 300 hands. The mine consists of three veins. On Tuesday of last week a gang of ignorant Hungarian miners set off a body of gas in the "Digwoods" counter. Nobody was injured by the explosion. The burst of a lamp ignited the coal in the counter and an attempt to extinguish the flames was begun. The presence of the deadly "black damp" was not suspected and there was no fear of a widespread blaze until yesterday. The spread of the flames was then found to be beyond the efforts to subdue them by ordinary process and the order was given to close the mine. A systematic "fire fight" was started. Three eight hour shifts were set at work. The fatal mission of the shift which entered the mine at 3 o'clock this afternoon was not known until the supply party found the first body late this afternoon.

Tennessee's Fair.

NASHVILLE, Tenn., September 26.—Last week was a great success in every respect at the exposition, the attendance during the week exceeding 60,000. To-morrow the national convention of journeymen plumbers and allied association will meet and the local society has prepared to receive and entertain the delegates.

Tuesday the Junior Order United American Mechanics will have their day at the exposition. Friday is Crockett day, and the descendants of Davy Crockett will meet in the auditorium, where speeches will be made by noted orators. General R. R. Crockett, of Stuttgart, Ark., is chief of the clan and will preside.

The United States cavalry will continue their drills and parades during the week. The great day of the week will be Thursday, when Kate Kirkman day will be celebrated in honor of the Woman's board.

The Hebrew New Year.

Rosh Hashana, the beginning of the penitential days and the Hebrew New Year, commenced at sunset yesterday. It marked the beginning of the Jewish New Year 5658. The celebration of the important holiday is being observed in all the synagogues in the city. It will close on the Day of Atonement, which will be next Wednesday.

The Rosh Hashana is based on the Mosaic laws and is peculiarly dedicated to self-scrutiny. Enmities of the year are gone over and amends are made. Old feuds are forgotten and there is general reconciliation and thanksgiving. The blowing of the ram's horn of Shophar is identical in form with that blown by the Jews of old, when they encompassed Jericho and marched around its walls. The blast of the Shophar was sounded 30 times during the service in the synagogues yesterday. To the orthodox Jew there is no sweeter instrument in all the world. The ram's horn which was used in the different churches yesterday is similar in design to those used centuries ago.

FIEND OR LUNATIC.

Cruel Murder of Wife and Child.

AN AWFUL CRIME COMMITTED

John Boecker Kills Six People and Then Fatally Wounds Himself—All Seems to Be a Mystery.

ONE CHILD STILL LIVING

CARROLL, Ia., Sept. 27.—John Boecker, a farmer living eight miles from this place, last night murdered his wife and five children and fatally wounded his eight-year-old son Henry. Afterward the fiendish or demented man sent a bullet into his own head, inflicting a fatal wound. The family were prosperous Germans and as far as is known lived happily. No motive for the tragedy has been disclosed. Boecker's victims are his wife and these children: Caroline, aged 14; Christine, aged 9; Henry, aged 8; Lizzie, aged 6; John, aged 3, and an infant.

Boecker, with his wife and baby, slept in a back room, and the three corpses were found on a bed. The wife had been shot in the neck with a shotgun which stood in the corner; the baby had been shot and its head crushed with the butt of a revolver. The man, still breathing, had a bullet hole in the forehead and by his side was a six-shooter with two chambers empty. Upstairs Henry and Lizzie lay on a bed with bullet holes in their foreheads, the latter dead, the boy still breathing. In the opposite corner of the same room Caroline, Christine and John lay dead, each shot in the forehead. It is undoubtedly a case of murder and suicide. The indications are that Boecker first dispatched his wife with a shotgun, and then used the revolver on the baby, first shooting it and then knocking its brains out with the butt end. Apparently Boecker then went up stairs where the five children were sleeping and killed them. All but two children met with instant death, for the blood clots were under their heads and two lay as calmly as if in sleep. All except Henry, who is not yet dead, were attired in night robes.

Boecker had reloaded the weapon while upstairs and evidently sent the second bullet in the oldest girl's brain just before leaving the room. Going down stairs, he stretched himself beside the corpse of his wife and shot himself. Boecker was 34 years old and for over twenty years lived in the neighborhood.

United Brethren Conference.

At the Allegheny Conference of the United Brethren church, which convened Wednesday afternoon at Altoona, Rev. T. P. Orner, Presiding Elder of Greensburg district; Rev. J. H. Pershing, Presiding Elder of Altoona district, and Rev. L. W. Stahl, Presiding Elder of Johnstown district, presented their respective reports, which were read and adopted. The reports contain matters of considerable interest to those concerned.

The reports of pastors were then read and adopted. Some of the reports showed that the collections for Missions in several places fell short of the amount assessed. Mr. Funk, Missionary treasurer, made a plea, and stated that the want of better support of the Missionary fund was due to a defective education, and that a judicious distribution of church literature would bring about a different result.

Bishop Kephart presides. Each session is full of interest, and much work pertaining to the affairs of the Conference is being done.

Oh, How They Hurt.

Neuralgic pains are often so acute, that the poor sufferer becomes, almost, frenzied with the intensity of the pain. Salvation Oil will instantly relieve and effectually cure neuralgia, so there is no reason why a moment's pain should be endured. Mr. Jacob Klein, 1036 Main St., Evansville, Ind., writes: "My wife suffered from neuralgia for seven years and since she used Salvation Oil, she has not had a spell. I think it is the best liniment I have ever tried, and I would not be without a bottle of it in the house. I had the rheumatism for five years and had tried a great many liniments, and must say that Salvation Oil did me more good than any other remedy." Salvation Oil is sold everywhere for 25 cents.

PREFERS TO WED A REPORTER

Boston Millionaire's Daughter Cancels Engagement to a Decendant of Franklin.

Boston, Mass., Sept. 27.—Early in the summer just ended a furore was created in society circles by the announcement that Miss Sarah Bond, daughter of Charles H. Bond, the millionaire tobacco merchant, had plighted her troth to Dupont Franklin, a prominent and wealthy member of the American colony, in Paris, a collateral descendant of Benjamin Franklin, and also related to the DuPont family of powder makers. The young people had met while Miss Bond was staying abroad, and it was planned to have an elaborate wedding.

Now it is announced that the engagement has been canceled, and that early in November Delos E. Goldsmith, a young reporter of this city, will lead Miss Bond to the altar. Goldsmith's only wealth is good looks and ability. He has been known for years, as the luckiest man on Newspaper Row, he having been dumped into Massachusetts Bay with four others, including Prof. Nat Rogers, being drowned. They had made the ascension under the auspices of the city of Boston.

George M. Robeson Dead.

TRENTON, N. J., Sept. 28.—General George M. Robeson, who, as President Grant's Secretary of the Navy, was one of the most conspicuous men of the United States, died at his home in this city of congestion of the lungs last night. General Robeson had been in impaired health for several years, and had grown extremely feeble. The prodigious energy and brilliant mental attainments which placed him at the front rank of the legal profession in the state and country were gone, and bound by age and infirmity, he had been scarcely able to move about for a year. His last illness fell upon him several weeks ago, and his end was felt to be very near.

His wife and only daughter, Ethel, were constantly at his bedside, and were with him at the last. Two sisters are the only other members of his family who survive him. They are Miss Annie Robeson, of this city, and Mrs. Emma Price, of Philadelphia.

General Robeson was a distinguished lawyer, being especially well versed on constitutional law. One of the most famous cases in which he appeared was in the United States court 12 years ago, during the big railroad war in this state. There were a dozen prominent lawyers in the case, all of whom are now dead.

Delayed by Maine Good-Bys.

Railroad men give Maine credit for being the hardest State to keep trains on time, owing to the leisurely way in which people board the cars. "In other States," remarked a conductor the other day, "if a train is scheduled to start at 10:05 it means 10:05, and folks who prolong their good-bys till 10:06 get left. The folks are educated up to it there and never think of protesting."

"But in Maine the women wait till we call 'All aboard,' and then start on a round of kisses and 'good-bys,' 'be sure to write,' 'come again,' 'such a good visit,' &c., till the poor train man is nearly distracted, and then when they finally get themselves settled in the seat and the car has started, they look at their watches and remark 'Ten minutes late; 'twill be twenty by the time we get there. These Maine trains are so slow.'"

But yet the railway men are obliging, and stand this sort of thing with remarkable patience; and though they sometimes grumble, yet out of the kindness of their hearts, hesitate to adopt the Massachusetts promptness. Sometimes they do even more for the delinquents, as was the case at Kennebunk the other day, the story of which affair is now going the rounds.

A young, newly-married couple there reached the railroad station in plenty of time, but just as the train pulled into the station the bride made up her mind that it would be the proper thing to go upon a mission among her friends, both ladies and gentlemen present. She had kissed about half of the crowd when the train started. The groom jumped upon the train, but the poor bride was left. A little way out of the station, the distracted groom told the conductor of his predicament and the official promptly stopped the train and had it backed to the station, where the sorrowing bride was taken aboard.

Have the Klondike Fever.

Two of Senator J. Henry Cochran's sons, Joseph and Charles, of DuBoisport, and L. G. Gaudrum, of DuBoisport, intend leaving for the Klondike in a short time.

Who Can Measure

The influence of the mother! It shapes the course of unborn generations—goes sounding through all coming ages and enters the confines of Eternity.

With what care, therefore, should the Expectant Mother be guarded, and how great the effort be to ward off danger and make her life happy.

"Mother's Friend"

Always Nervousness, relieves the Headache, Cramps and Nausea, and so prepares the system that Child-Birth is made easy and the time of recovery shortened—many say "stronger after than before confinement." It insures safety to life of both mother and child. All who have used "Mother's Friend" say they will never be without it again. No other remedy robs confinement of its pain.

"A customer whose wife used 'Mother's Friend,' says that if she had to go through the ordeal again, and there were but four bottles to be obtained, and the cost was \$100.00 per bottle, he would have them." Geo. Layton, Dayton, Ohio.

Send by Mail, on receipt of price, \$1.00 PER BOTTLE. Book, TO "EXPECTANT MOTHERS," mailed free containing valuable information and voluntary testimonials.

THE BRADFORD REGULATOR CO., ATLANTA, GA. SOLD BY ALL DRUGGISTS.

The U. B. Church Appointments.

The United Brethren Conference came to a close Saturday. It was a very successful affair. The following appointments have been made in this district. It will be seen that Bellefonte gets Rev. A. Rhen, and that Rev. C. C. Miller goes to Bellwood:

ALTOONA DISTRICT—Presiding Elder, T. P. Orner.
Altoona—First—W. W. Williams-son.

Altoona—Second—S. S. Hough.
Bellefonte—A. Rhen.
Bellwood—C. C. Miller.
Bigler—O. T. Stewart.
Clearfield—W. H. Mingle.
East Salem—W. Cramer.
East Freedom—Geo. Noden.
Huntingdon—R. S. Woodward.
Huntstown—J. P. Tallheim.
Juniata—W. A. Jackson.

Liverpool—C. C. Bingham.
Millheim—To be supplied.
New Paris—W. R. Dillen.
Orbisonia—B. L. Fasick.
Phillipsburg—E. B. Somers.
Port Matilda—A. W. Maxwell.
Shade Gap—E. H. Grumbling.
Stormstown—W. H. Mattern.
South Williamport—C. W. Myers.
Three Springs—E. L. Erhart.
Tyrone—W. W. Rymer.
Runville—J. F. Kelly.

West Decatur—G. A. Sparks.
George A. Funkhouser—Professor U. B. Seminary.

W. R. Funk—Publishing Agent.
W. J. Zuck—Professor Otterbein University.

H. F. Shupe—Editor Watchword.
J. P. King—Missionary to Africa.
E. N. Horneshell—Principal of Shenandoah Institute.

Increased License Fees.

According to the act of 1887 retail liquor dealers were required to pay a license fee of \$150 in boroughs and \$75 in townships; wholesale dealers, \$200 in boroughs and \$100 in townships; bottlers the same as wholesale dealers.

The act passed at the last session of the legislature and approved by the governor, increases the fees as follows:
Wholesale dealers, boroughs \$200, townships, \$100; bottlers, \$250 in boroughs and \$125 in townships; brewers, \$25; where the output is not over 1000 barrels a year, and from that figure to \$600 where the output is 3,000 barrels.

To the fees heretofore paid by retail dealers is added \$50 in boroughs and \$25 in townships.

Under the old law the license fees from wholesale dealers, bottlers and brewers all went to the state, while those of hotels and restaurants were divided between the county, boroughs and townships. The new law does not change this, except that the additional fees paid by the hotels and restaurants go to the state.

Married.

At Mill Hall, on Thursday evening, September 23, by Rev. J. C. Wilhelm, William C. Deitz and Miss Clara Gerberich, of Howard, Pa.

Mother and Daughter.

Like mother, like daughter! If the mother is a healthy woman, the daughter is apt to be the same. This is especially true if the mother understands exactly upon what her good health depends.

If the mother has learned to guard herself from the ills of life she will know how to guard her daughter from the same ills.

In a recent letter to Dr. Hartman a mother writes: "I had been an invalid for a long time after my girl was born. The doctors seemed unable to help me. I was induced to try Pe-ru-na, which cured me and made of me a sound, healthy and happy woman. By this time my daughter was three years old, and I made up my mind that if Pe-ru-na was good for me it would be good for my little girl I have used the Pe-ru-na for her ever since. Whenever she is sick, whenever she catches cold, or gets nervous, or has any one of the numberless ailments to which

girls are subject, I give her Pe-ru-na. She is now sixteen years of age, and has never taken any other medicine. She is well, beautiful, and happy, for which I give Pe-ru-na praise. My own health, as well as my daughter's, I attribute to the use of Pe-ru-na.

Dr. Hartman has lately written a book devoted to the ailments peculiar to the female sex. It is profusely and beautifully illustrated, and every woman should possess one. It will be sent free to women only, for a short time, by The Pe-ru-na Drug Manufacturing Co., Columbus, Ohio.

Boston's Subway.

The length of Boston's subways is eighteen miles. In some places there are double tracks and in some places four tracks. The single track mileage in the subways is five and three-tenths. As the motive power is electricity the air is good. The objection to subways that the air in them is foul has disappeared with the abandonment of steam as the motive power. The relief to Boston's congested streets is reported to be very great already. When the entire subway system shall be put into use the busiest streets will be reserved entirely for pedestrians and teams. The trains make very much better time in the subways than they used to make upon the surface of the streets. Blockades and collisions are rendered impossible.—Chicago Record.

Jury Awarded Her \$1,000

Mrs. Frank Beebe, who brought suit against the borough of DuBois for damages sustained by a fall on a sidewalk in that borough, gained the suit and was awarded \$1,000 damages by the jury. There seems to have been no defect in the sidewalk, except the slant. The walk sloped from the building in front of which it was built, and the question discussed at the trial was whether the slope was more than it should have been. There was a sleet on the walk and it was claimed by the defense that the accident was unavoidable, and neither the owner of the property nor the borough was in any way responsible.

As to Potatoes.

When potatoes are already infected with disease there is no way to make them sound; they will rot sooner or later. Before putting potatoes in the cellar they should be looked over carefully and all affected ones removed, as a rotten tuber is apt to destroy all sound ones it touches. Air-slacked lime is sometimes used to sprinkle over a bin of potatoes to absorb moisture and thus check the spread of disease. Keeping in a cold dry cellar will have a like effect. It is well to sort over potatoes a few weeks after they are stored remove the rotten ones and so prevent further rotting.

Resulted in a Draw.

BALTIMORE, September 23.—The match at cricket between Mr. Warner's team of Englishmen and a team composed of Baltimoreans, which began yesterday, resulted in a draw this afternoon, bad weather making it impossible for the home players to finish their second inning. The score, when stumps were drawn, stood 252 for the Englishmen to 188 for the Baltimoreans, the latter having four wickets down in the second inning, while the Englishmen had a full inning to go. The Englishmen begin a three-day match at Philadelphia to-morrow.

FAILED TO AGREE.

The Coroner's Jury in the Lattimer Massacre Case Disagree.

WILL MEET AGAIN THIS EVENING

Some Excitement Results From the Discharge of Men Who Testified at the Inquest—Colliers Will All Resume To-Day.

THE TROOPS LEAVING FOR HOME

HAZELTON, Pa., Sept. 25.—A remarkable outcome of the coroner's inquest as to how and why the twenty-four miners were killed by the sheriff's posse at Lattimer was the utter failure of the jury this evening to agree on a verdict. They were "all at sea" touching the merits and demerits of the case. Everyone of the six jury men submitted a separate verdict.

They, however, agreed on one point, that "the men came to their death from gunshot wounds, sustained by Winchester in the hands of the deputies."

But when it came to signing the verdict three of the jurymen refused, because a clause was not inserted censuring the sheriff and his deputies.

The jury will meet again on Monday evening, when it is probable a verdict may be reached.

A new phase in the situation developed to-day and it is one that is likely to cause trouble. The operators at the various collieries are discharging all the witnesses against the sheriff and leaders in the strike. At Lattimer alone fifteen men were dismissed to-day.

Miners' Organizer John Fahey, when seen to-night, stated that this was a serious matter, and might be the means of precipitating another strike.

Great interest is also manifested in the railroaders' meeting, which takes place at White Haven to-morrow.

The clay strippings at A. S. VanWinkle's colliery closed down this evening for the season, throwing several hundred men and boys out of employment.

The only other event of interest in the strike situation to-day was the removal of the troops. The Twelfth and Thirteenth regiments, the latter stationed at Lattimer, broke camp early this morning.

The Twelfth regiment after breaking camp, formed into line and marched past the headquarters of General Gobin at the Valley hotel. The General appeared, and after reviewing the procession delivered an inspiring address thanking the members of the regiment for so promptly responding to the call to arms and for their soldierly bearing while in this region.

It was nearly noon before the Thirteenth regiment broke camp. Colonel Mattes read the order and complimented the men for their excellent deportment.

General Gobin, in an interview to-night stated that in all probability all the troops would be gone by Wednesday next. The Fourth and Eighth regiments are booked to leave on Monday, and the Ninth on Tuesday. The City Troop and Governor's Troop will be the last to leave.

HAZELTON, Pa., Sept. 26.—Nothing developed to-day in the strike region and the day passed off quietly and without incident. All the collieries will resume to-morrow, some for the full week, others for part of the week. General Gobin and his staff rode to Audenried this afternoon and this evening the Ninth regiment gave a dress parade. It is announced at headquarters that the Fourth regiment is to be withdrawn on Tuesday. The Fourth is stationed at Drifton. A conference will be held to-morrow to decide upon the withdrawal of the other troops.

The failure of the coroner's jury to arrive at a verdict is variously commented upon. Another meeting of the jury is to be held to-morrow evening when it is expected a verdict will be rendered. A meeting of miners was held at Freeland to-day at which several prominent labor leaders, including General Organizer Fahey, of the United Mine Workers, were present. The meeting was held behind closed doors and nothing was given out. It is known, however, that the miners are being more thoroughly organized, so that in the event of another strike they will have a leader and organization.

A gang of miscreants broke into Squire Robinson's office at Audenried, and demolished considerable furniture. Later, the residence of Mine Superintendent Gomer Jones was stoed. Robinson refused to issue a warrant for Foreman Jones' arrest several weeks ago and this is supposed to be the cause of the raid on his residence.

General Gobin is slightly indisposed to-night, on account of an injury received to-day while out riding. A saddle strap was accidentally broken and the general was thrown to the ground.

Dr. Scott, whose Adv. appears in this issue makes the very liberal offer to every one trying his brush, that if it is not found satisfactory after six months trial he will refund the money, the brush has been sold over twenty years and must have merits to enjoy such an extensive sale.

No Gripe

When you take Hood's Pills. The big, old-fashioned, sugar-coated pills, which tear you all to pieces, are not in it with Hood's. Easy to take

Hood's Pills

and easy to operate, is true of Hood's Pills, which are up to date in every respect. Safe, certain and sure. All druggists, etc., C. I. Hood & Co., Lowell, Mass. The only Pills to take with Hood's Sarsaparilla.

Howard Items.

Mr. Will Conley, of Bellefonte, was the guest of Mr. Reuben Lucas last Sunday.

Mrs. Smith, of Berwick, Pa., is visiting her sister, Mrs. Curtis DeHaas, on Walnut street.

Mr. M. J. Gardner and wife, of Bellefonte, spent Sunday with Mr. Gardner's parents, on Main street.

Dr. W. H. Kochler, one of Bellefonte's popular dentists, transacted business in this place part of this week.

Mrs. John Bierly and children are visiting friends this week at Tylersville.

Mrs. Z. T. Weirick and daughter, Miss May, spent Sunday at Castana with her brother, Mr. Chas. Neff.

Mr. Grant Hoover, one of Bellefonte's insurance agents, passed through town on his wheel Monday.

Mr. Walter Schenck, son of Mr. Christ. Schenck, drove from Williamsport to this place on Sunday.

While here he was the guest of his father. He returned to work again on Tuesday.

Mr. Owen Allison has just completed weatherboarding his new house, which adds greatly to the appearance of it.

The Mission Band festival, which was held at the home of Rev. J. R. Schrist last Saturday evening, netted quite a nice sum.

The Y. P. S. C. E. of the United Evangelical church of this place will hold an oyster supper and fair in the vacant store room on the Cooke corner, on the afternoon and evening of Thanksgiving day and the day after, being the 25th and 26th days of November. All are cordially invited to attend.

Cards are out announcing the marriage of Howard B. Neff, of Roland, and Miss Ida K. Leathers, daughter of Mr. and Mrs. W. T. Leathers, of this place, on October 14th, at the home of the bride.

Mr. E. C. Deitz, our baker, still reports that his business is brisk. He says that he is compelled to bake 100 loaves of bread every day, besides rolls, cakes, etc. The writer is glad to know that this is one of our home industries that is being well patronized, and hopes that hereafter all small industries started in Howard will receive similar encouragement by the people.

Mr. M. Miner, our popular jeweler, will hereafter heat his store with a heater, as he has just put in one of the best make of heaters in his basement.

Out of 13 applicants for the post office at this place Hayes Schenck was the lucky man. He has received his appointment and will take charge on October 1st. All the other candidates were very badly disappointed, as each one felt positive that he would be the lucky person.

Mr. J. B. Wetzel, our foundryman, had four of his men working at Bald Eagle part of this week loading boilers, engines, lumber, etc., to ship to this place, where he will overhaul them and make them good as new.

Mr. John Bierly transacted business at Vail this week.

Prof. Daniel Baney is suffering with a severe attack of lumbago.

Mr. W. F. Hall and sister, and Mr. H. T. Lucas and wife transacted business at Bellefonte on Tuesday.

Mr. R. P. Long, one of our merchants, has gone into the peach business, having purchased the entire crop of Mr. S. D. Tire, amounting to about 400 bushels.

No Hope of Recovery.

RICHMOND, Va., Sept. 28.—Major Lewis Ginter, the well known capitalist, lies desperately ill at his country home near this city. There is no hope of his recovery. He is gradually growing weaker.

WOODFORD AT MADRID.

His Arrival at the Spanish Capital Makes A Sensation.

THE PROGRAM OF THE UNITED STATES

It Does Not Contemplate a Declaration of War if Spain Rejects Mediation.

WOODFORD DECLINED REJECTION

MADRID, Sept. 26.—The arrival of United States Minister Woodford from San Sebastian has made a sensation. The program of the United States has been ascertained. This does not contemplate a declaration of war if Spain rejects mediation, but according to report, an "ostentatious proclamation to the world of disapproval of the Cuban regime by suspending diplomatic relations with Spain and withdrawing the United States minister."

General Woodford declined to be interviewed on the subject, further than to say that his conference with the duke of Tetuan, the foreign minister, was of the most satisfactory character. The unexpected bitterness of the press and of public opinion has painfully impressed him, but he hopes this will soon be allayed, as he believes his mission favorable to Spanish interest, and cannot comprehend that Spain could reject mediation designed to end an impoverishing war. He has not named a time at which the war must be terminated, but he hopes, as the result of his tenders, that it will be ended quickly. He believes the war is inflicting incalculable losses upon the United States, and that it is impossible to prevent the organization of filibustering expeditions.

Unusual measures were taken to protect Minister Woodford on his journey from San Sebastian to this city, but the trip was quite uneventful. A party of gendarmes, commanded by a sub-lieutenant, guarded the southern express, on which he was a passenger. Secret police were posted at the station, and the perfect of police was in waiting to escort him to his hotel. The drive through the streets was marked by no special incident, though several people saluted him, receiving a bow in return.

Some comment has been caused by the fact that Minister Woodford's family has not accompanied him, but remains behind the French frontier. Minister Woodford explains that his party is a large one, requiring a commodious home, and prefers spending a pleasant October at Biarritz until a suitable residence can be secured here. The legation cannot be used as a residence. General Woodford has already engaged a box at the Royal opera house and has purchased horses.

Killed Spanish Commander.

HAVANA, Sept. 24.—It is announced from Spanish headquarters that during the night of Wednesday last a number of insurgents attempted to enter the town of Socorro, Province of Santiago de Cuba, but were repulsed with a loss of several men killed. The Spanish commander of the town and four soldiers were killed and twenty-two were wounded.

The military commander of Campa Florida, this province, has captured at Asiento del Gato an insurgent depot containing eleven boxes of cartridges and 550 pounds of dynamite, believed to have been landed by a filibustering expedition.

The Spanish authorities claim that a son of Calixto Garcia, the famous insurgent General, was severely wounded in the last fighting about and attack on Fort Brenca, in the District of Holguin, Province of Santiago de Cuba. The insurgent leader Salome Morejon, it is added, has been killed in the Province of Matanzas.

Socialism.

The first argument in favor of socialism of all the varying grades is that the present system has failed so utterly that it must be pulled up by the roots and thrown away. We have no intention of depicting the unsatisfactory nature or present conditions. We have long exposed and opposed the abuses which concentrate the opportunities of enterprise to the benefit of a favored few. The urgent need of reform is indisputable. But as employed, in favor of the alleged reform of putting all enterprise into the hands of the government, the argument of the failure of the system is utterly destructive of its own conclusion.

Avoid An Early Grave.

How often do we hear, that the average man's early grave was opened by neglecting a slight cough and cold. Profit by this truth, and provide yourself with Dr. Bull's Cough Syrup, which instantly cures all throat and lung affections. Mr. W. H. Mahoney, Lowell, Mass., writes: "I was taken sick with a bad cold. The doctors did not seem to help me, and everybody said I was getting consumption, when a relative recommended Dr. Bull's Cough Syrup. I got a bottle and it helped me, and after taking two bottles I was cured, to the surprise of everybody. I shall always recommend it to my friends, as I know it to be a sure cure." Dr. Bull's Cough Syrup is sold everywhere for 25 cents. Don't accept a substitute. Sold by C. M. Parrish.

900 DROPS

CASTORIA

A Vegetable Preparation for Assimilating the Food and Regulating the Stomachs and Bowels of

The fac-simile signature of **Dr. J. C. Fletcher** is on every wrapper.

Jubilee of the Reformed Church.

The Reformed church in the United States is this year very successfully celebrating its sesqui-centennial. The first Coetus was formed in the First Reformed Church in this city on September 29, 1747, but the local commemoration of this event will be held next week. From the four ministers representing twelve congregations, who attended the first Coetus, the church has grown so that it now embraces eight synods, 56 classes, 1,001 ministers, 1,695 congregations, 229,300 members and 297 students for the ministry. There are nineteen literary and theological institutions in the church, the strongest of which are Franklin and Marshall College and the Theological Seminary at Lancaster. Two orphan's homes are also supported and the church issues twenty-eight periodicals.

The Reformed church in the United States, still popularly distinguished as the German Reformed, belongs to the large family of ecclesiastical organizations which constitutes the greater portion of Evangelical Protestantism. It traces its origin in part to the rise of the Protestant reformation in Switzerland, where Ulrich Zwingli began to preach the reformation views as early as 1516, just one year before Luther instituted his movement in Germany, and in part also to the reformation in Germany. It had its beginning in this country among the exiles who fled to escape persecution and who sought here an asylum where they could enjoy religious freedom. Prominent among the earliest ministers were Philip Boehm, George Weiss, John Bechtel and Michael Schlatter, the missionary father of the church.

The early growth of the church in this country was hindered by the scarcity of ministers and the lack of means. Later the progress was halted somewhat by adhering too tenaciously to the use of the German language. But in recent years this advancement has been rapid, the denomination now ranking third among the Protestant bodies in the proportion of growth. The present sesqui-centennial celebration will serve as a stimulus in cultivating denominational loyalty and zeal for the cause of christianity. For the Reformed church especially the jubilee is being taken advantage of by an effort to raise the sum of \$100,000 as a basis of home vision work.—Philadelphia Times.

"These blind leaders of the blind are explaining why the rise in wheat is no help to farmers. It is only an accident, they say. Poor crops elsewhere, and so we sell at a profit; that is all. You will be no better off in the end, for such accidents cannot happen in the future. You will have to pay high prices for what you buy, and so you will be in the same case in another year as you were year before last. What idle talk this is! The returns from the wheat crop and the other cereals spent in purchases starts the nation to work."—Thomas B. Reed in answer to Wm. J. Bryan.

A Temp. Peace Patched Up.

WASHINGTON, September 24.—A telegram received at the state department from United States Minister Stewart at Montevideo, announces the proclamation of peace there. He had previously reported that all arrangements had been made looking to peace, but that the plan required the ratification of congress. It is asserted that this has now been given and that the insurrection is at an end.

HOOD'S PILLS cure Liver ills, Biliousness, Indigestion, Headache. Easy to take, easy to operate. 10c. 25c.

A Painter's Frightful Fall.

A few days ago while a painter was painting the high stack at J. B. Weed & Co.'s mill at Slate Run, Lycoming county, the scaffolding gave way and the man was precipitated 70 feet to the ground. Death was instantaneous. His body was shipped to his home at Canton, Ohio.

Auditors Notice.

H. A. McKee and Pro. vs. John Madill. In the Court of Common Pleas of Centre County. Judgment No. 305. Aug. Term 1896. Vind. Ex. No. 43 Aug. Term 1897. The undersigned, an auditor appointed by the Court of Common Pleas of Centre County, to hear and pass upon the exceptions filed to the Sheriff's return under the Creditors Lien Act, in the above stated case and to distribute the fund arising from the sale thereof to and among those legally entitled thereto, will meet the parties interested, at his office in the Borough of Bellefonte, on Monday October 25th 1897 at 10 o'clock a. m. Parties interested will please attend. CLEMENT DALE Auditor.

KLONDIKE GOLD.

"The Greatest Gold District on Earth."

Share \$1.00. Agents Wanted. Why not share in the millions that are being taken out of Alaska? We offer a golden opportunity.

We shall send an expedition with a large stock of merchandise and fully equipped with mining appliances. This merchandise will return a handsome profit in addition to the enormous sums to be made from economic mining. We confidently expect to return \$100 FOR EVERY \$1.00 INVESTED.

Holders of 350 shares entitled to accompany expedition with all expenses paid. Prospectus free.

A limited number of shares now on sale. \$1.00. ALASKA GOLD MINING. TRADING & TRANSPORTATION CO. No. 220 Broadway, New York City

\$7,800 GIVEN AWAY

To persons who make the greatest number of words out of the phrase, "Patent Attorney Wedderburn." For particulars address the National Recorder, Washington, D. C. aug19-2m

GUILTY OR NOT GUILTY?

Peter Mendis Under Arrest for Murder in the First Degree.

DID HE POISON JAMES MARIA?

Maria Died on the 7th of January, 1896, Under Suspicious Circumstances—The Body Examined Wednesday and a Post Mortem Held.

AN INTERVIEW WITH THE ACCUSED

The old saying that "murder will out" seems about to be verified right here in Bellefonte, if the theory of the Commonwealth can be proven. For some time past rumors and counter rumors have been afloat in regard to a murder mystery, which was being investigated, but little credence was placed in them until Wednesday, when a genuine sensation was sprung upon our quiet little city by the arrest of Peter Mendis, an Italian rag picker and carpet cleaner, for the murder, on January 7th, 1896, of his partner, James Maria. The arrest was made Wednesday evening about 6:00 o'clock. Mendis seemed greatly surprised, but had very little to say for himself.

James Maria, the victim, came to this city about five years ago and engaged in the rag picking business, locating in the old penitentiary building on Howard street. Soon thereafter Mendis came here and went to work for Maria. Business moved along briskly and Maria was doing well and laying up some money for a rainy day. He had it all planned out to bring his wife and family over from sunny Italy and to make a cozy home for them in this land of the free. But all his bright dreams faded, for he became ill, finally dying in a very suspicious manner at his home in the old penitentiary block, on Howard street, on the night of January 7th, 1896.

Before his death, however, he had sent money to his family and they had started for this country. After his death Mendis took charge of everything, and had the remains buried the next day in the Catholic cemetery at this place, he paying the bills and claiming that Maria left no money. Mendis then started for New York, met Maria's family, told them of the death of the husband and father and sent them back to the old country.

Mr. Mendis then returned to this place, took charge of the business and has prospered greatly since then. He has put up a building on East High street and put in expensive machinery for carpet cleaning, and was getting along well.

Now, these are the facts in the case and it must be admitted they are very suspicious. But at the same time it is mostly circumstantial, and Mendis may be able to prove his absolute innocence. It is to be hoped that he may, as he is an industrious fellow and has borne a pretty fair reputation.

District Attorney W. J. Singer and Coroner M. J. Locke have been working on this case for some time and Wednesday, about 11:00 o'clock the remains of the supposed murdered man were exhumed and a post-mortem examination was held. The coroner was assisted in the examination by Doctors Edward Harris and M. A. Kirk. The body was found to be in a good state of preservation; the stomach especially so. The stomach, heart and other parts of the body were sent to Philadelphia for analysis.

The theory of the Commonwealth is that Maria came to his death by poisoning at the hands of Peter Mendis. The arrest was made on information furnished by the authorities. It is said that suspicion was first directed against Mendis from some facts which a former female friend of the prisoner let drop.

Peter Mendis is a young man, about 32 years old, unmarried, about 5 feet 8 inches in height, dark hair, gray eyes and dark complexion.

A REPUBLICAN reporter had a talk with Mendis in the jail this morning but could get nothing of importance out of him.

He is confined in a cell by himself and is not allowed to mingle

with the other prisoners. His chief complaint is about his business, as he says it will suffer greatly by his confinement.

Mendis has secured as his attorneys Hugh S. Taylor and Kennedy Johnson.

PASSED THE MARK.

The L. A. W. Has Now Over 100,000 Members—Some Facts About It.

NEW YORK, Sept. 22.—The long looked for and long worked for hundred thousand membership mark of the League of American Wheelmen at last has been attained, and the organization of the bicycle riders of the United States has entered upon the leg to the two hundred thousand mark. The time occupied in rolling up this vast membership has been almost seventeen and one-third years, a period that has seen the bicycle advanced from a plaything and a luxury to a vehicle of common use and almost of necessity.

In this period the bicycle has by successive stages evolved from the "boneshaker" of bucking tendencies and great weight to the light modern "safeties" with their air-cushioned tires, that are ridden by both sexes of all ages. Since the organization of the league the record for one mile has been reduced from the neighborhood of three minutes to a little more than a minute and half, and where fifteen miles in an hour was considered remarkable riding on a bicycle then, present day flyers go more than thirty miles in the same time.

The league was organized at Newport, R. I., on May 30, 1880, on which occasion a number of wheelmen and club delegations from New York, Boston and other Eastern cities had gathered to join in a parade. In that parade there were 133 wheels in line, all of course, of the old "ordinary" variety, and among the clubs that took a prominent part were the Boston Bicycle club, Suffolk Bicycle club Massachusetts Bicycle club, New York Bicycle club, Manhattan Bicycle club and the Essex Bicycle club of Newark.

"Sam" Clark of Baltimore presided at the organization meeting, and he is credited with having suggested the name of the League of American Wheelmen. Four hundred members were enrolled at the start, and the first officers elected were as follows: President, Chas. E. Pratt, Boston; vice-president, T. J. Longstreth, Philadelphia; corresponding secretary, A. T. Parsons, Cambridge, Mass; recording secretary, J. F. Burrill, New York; treasurer, H. L. Willoughby, Saratoga, Kirk Munroe, New York. From 400 in the spring of 1890 the membership has increased to 100,000 at the present time. The secretary's report, received at L. A. W. headquarters in this city yesterday, showed an increase in membership over the preceding year of 792, making the total to date 100,098. During the same week the following states increased their respective division memberships as follows:

New York add 281, total 26,467; Pennsylvania add 167 total 23,968; Massachusetts add 70, total 11,868; New Jersey add 60, total 6,619; Illinois add 24, total 3,390; Ohio add 26, total 2,938; Maryland add 25, total 1,813; Connecticut add 20, total 2,005; Missouri add 15, total 1,610; Michigan add 9, total 2,039; Wisconsin add 8, total 2,528; Rhode Island add 4, total 1,595. Just one year ago the membership of the league totaled 68,233, of which New York contributed 18,780.

"Let parents not live for their children but with them." The mother should allow no false modesty to stand in the way of her daughter's knowledge of herself, of her possibilities, of her perils. For over thirty years Dr. Pierce has used his "Favorite Prescription" as a strengthener, a purifier, a regulator. It works directly upon the delicate, distinctly feminine organs, in a natural, soothing way. It searches out the weak spots and builds them up. A woman who would understand herself should send 21 cents to the World's Dispensary, Buffalo, N. Y., for Dr. Pierce's Medical Adviser, a book of 1008 pages.

Presiding Elders Chosen.

ALTOONA, Pa., Sept. 24.—(Special.)—In the Allegheny conference of the United Brethren church to-day the committee on the second year's reading course for the ministry report that four young men had passed the examination and been put into third year's course. Two candidates for the third year's course were examined. One passed and the other failed. C. C. Miller, the successful candidate, goes before the committee on an application for the ministry. A number of changes were adopted. The conference treasurer reported a balance in the treasury of \$1,067.27. The old boards of trustees were elected as follows: Rev. W. L. Stahl, J. Meisgar, John Thomas, D. Strayer and J. C. Gates. Revs. L. W. Stahl, Johnstone, F. P. Orner, Altoona; J. H. Pershing, Tyrone, elected district presiding elders.

An educational rally was held this evening. Stirring addresses on religious education were delivered by Prof. W. J. Zack of Otterbein university and Dr. G. Funkhouser, senior professor in Union Biblical seminar.

The fall session of the Allegheny Normal school is in progress.

AMONG THE MINERS.

The Coroner of Luzerne County Began His Inquest Thursday.

NO NEW TESTIMONY ELICITED

A Score of Witnesses Examined, All of Whom Swore the Men Were Unarmed—Illinois Strike Declared Off Conditionally.

SERENE IN CLEARFIELD COUNTY

HAZELTON, Pa., Sept. 23.—Coroner McKee this afternoon began the inquest into the death of the Lattimer victims. A two hours' session was held during which a score of witnesses was examined.

There was present quite an array of attorneys, and they occasionally suggested questions to the coroner, who carried on the examination. District Attorney D. A. Fell, of Luzerne county, was there, H. A. Fuller, of Wilkesbarre, appeared for the coroner; State Chairman Garman, John McGahren and B. F. Loughran for the prosecution, and George H. Troutman, of Hazleton, for the deputies. Dr. Thodorovich, secretary to the Austria-Hungarian consulate at Philadelphia, and R. D. Coze, attorney for the consulate, were also present.

Nearly all the testimony adduced was a repetition of that brought out at the hearing of the deputies in Wilkesbarre. Most of the witnesses were foreign strikers who were in the march and halted by the deputies deadly fusillade. They gave the details of the affray as already published and all declared that none of the strikers were armed; that Sheriff Martin pulled a revolver on them but that no one attempted to take it from him; that no violence had been offered that official, and that the miners had no intention of making an unlawful demonstration. The hearing will be resumed to-morrow.

The strike situation remains unchanged to-day, except for the return to work of those Harwood miners who were afraid to go back yesterday. Every colliery in the region worked and there was not the slightest disorder anywhere.

The question of the withdrawal of the militia remains undetermined, but that it will begin before the end of the week is felt by those at headquarters to be almost a certainty.

To-night the committee of delegates from the mine workers of the region is in secret session discussing the situation.

STRIKE DECLARED OFF CONDITIONALLY.

ST. LOUIS, September 23.—The coal miners of Belleville, Ill., and vicinity to-day declared off the strike so far as it affects owners who are willing to pay the scale. About half of the miners in St. Clair county have resumed or are preparing to do so at the thirty-seven cent scale. Most of the others are expected to soon come into line. The consolidated company will be the last to surrender and a long and bitter fight on its part is expected.

As none of the strikers will go to work for the company until the scale is paid, it is probable that an attempt will be made to import miners. If it does trouble will probably ensue.

NO FURTHER TROUBLE LOOKED FOR.

DuBois, Pa., September 23.—The joint committee representing the miners of Jefferson and Clearfield Coal and Iron company, who were sent to the Pittsburgh region to investigate the sale for pick and machine mining, met the company officials here to-day. The scale for this region was agreed upon but will not be made public before Saturday. It is understood that there was no difficulty in reaching an agreement, and no further trouble in the region is anticipated.

Indigestive poisons are the bane of the dyspeptic's life. When sick, see if your sickness is caused by indigestive poisons. If so, take Shaker Digestive Cordial. This is the only certain way of being permanently cured, because it is the only way that gets rid of the poisons. You know that aged food is poisonous. You know that poison is unhealthy. Shaker Digestive Cordial clears the stomach of fermenting food, and purifies the blood and system of indigestive poisons. It cures indigestion and the diseases that come from it. Headache, dizziness, nausea, stomach-ache, weakness, flatulence, constipation, loss of appetite, irritability, etc. These are a few of the symptoms, caused by indigestive poisons, cured by Shaker Digestive Cordial.

At druggists, price 10 cents to \$1.00 per bottle.

A Big Contract.

R. J. Schadd & Brother, plumbers and steam fitters, of this city, have just been awarded the contract for equipping the new Catholic church, parsonage, school and convent buildings at Renovo. They are to put in a complete steam heat plant, and competed for the job against plumbers from the larger cities. The Schadd Brothers do honest, reliable work and are building up a big reputation in this and surrounding counties.

JUMPED FROM A TRAIN.

A Lieutenant Falls In an Attempt at Suicide.

Early Tuesday morning, shortly after Erie mail east left Williamsport, a man whose name was afterwards learned to be Lieutenant R. G. Hill, of Columbus, O., entered the water closet in one of the Pullman sleepers. When the train arrived at Milton the man had not made his appearance. The door was forced open, when a knife with a bloody blade was found on the floor. The walls and the floor were also covered with blood spots. The window was open and a man's vest was found hanging on the hook. A note was taken from one of the pockets which gave the man's name and place of residence. It also stated that he intended committing suicide for the reason that he had broken a pledge made to his wife to stop drinking.

The window being open it was at once surmised that the man had jumped out, and as the train was running at great speed the conclusion was arrived at that he had been killed. A search was made for the man but he could not be found.

Hill, however, was not killed when he jumped out of the window. He received a bad shaking up from his tumble, and was badly bruised about the face and head. Before jumping out of the window he had cut the veins in his wrist. He bound the incisions with a handkerchief and then walked to the tower at Muncy. Here he informed the operator of his name and asked that he be shown a hotel. He was directed to a hotel in that place, and shortly after Dr. A. P. Howe, who had heard of the man's injuries, made his appearance. Hill refused the physician's services. When asked if he had any explanation to make about his attempt at suicide he replied that he had not, and with an oath added that too much had already been said. Later on he was taken to the Williamsport hospital. Lieutenant Hill was on his way to Washington when he jumped from the train.

Educate Your Bowels With Cascarets. Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fails, druggists refund money.

Wagon Run on Rails.

In accordance with the desire of the secretary of agriculture to promote more extended experiments in the use of steel trackways on wagon roads, the office of road inquiry has made arrangements with the Cambria iron works of Johnstown, Pa., for rolling special rails for this purpose, these arrangements to go into effect as soon as definite orders from responsible parties amounting to one mile of track are received.

The director of road inquiry and the engineers of the iron company, after much discussion, have agreed upon a plan of track that promises to meet all requirements. It requires no wood in its construction nor no cross ties for support, but consists of a simple inverted trough or channel of steel for each wheel, with a slightly raised bed on the inside to guide the wheels, each channel resting on a bed of gravel, and tied together occasionally to prevent spreading.

The first order for track has been given by the New York state agricultural experiment station.

Was It Suicide or Foul Play?

ELMIRA, N. Y., September 19.—The body of Edward B. Holden, a carpenter, was found hanging from the limb of a tree in the woods, three and a half miles from this city to-day. A horse and wagon hired by him Saturday was found near by. The wagon was covered with blood and Holden had two lacerations on his right arm above the elbow and four on his wrist, evidently cut with a knife, but no knife could be found or money on his person, although his wife said he had \$167 when he left home. The family surmise foul play. The authorities are of the opinion that Holden committed suicide. Holden was junior vice commander of L. A. Hazard post; Grand Army of the Republic, of this city. There was no reason known for suicide.

To Cure Constipation Forever.

Take Cascarets, Candy Cathartic, 10c or 25c.

Invalid and Sacramental Wines.

Speer's Unfermented Grape Juice is pure and unaltered. It is made from the finest native grown Port Grapes, especially for the use of Christian Churches, preserved from fresh and pure juice as it is pressed, and guaranteed to retain its grateful flavor and essential qualities unimpaired for any period. Much used for evening parties and invalids who do not use stimulants.

Headache and Neuralgia cured by Dr. Miles' Pain Pills. "One cent a dose."

LIKE A MIRACLE

How a Locomotor Ataxia Sufferer Was Cured.

From the Evening News, Detroit, Mich.

James Crockett, a sturdy old Scotchman, living in Detroit, Mich., at 88 Montcalm Street, was asked about his wonderful cure. "First," he said, "I must tell you something of my life before my almost fatal sickness. I was born in Scotland in 1822, and came to this country in 1848. I am a marine engineer by trade. In 1872 I was in the employ of the Detroit and Cleveland Navigation Co., and for fifteen years I was chief engineer on one of their big passenger steamers. My first boat was the H. N. Rice, which was burned at the docks. Then I was transferred to the Rubie, which was chartered to make the run between Detroit and Cleveland.

"I brought out the new steamer 'City of the Straits,' and for years acted as her chief engineer. It is a great responsibility, the position of chief engineer on those big passenger palaces. Thousands of lives are held in the keeping of the engineer. The anxiety causes a great nervous strain, and the strictest attention is necessary. Not for a moment must he lose his watchfulness.

"For fifteen years I carefully watched the big engines and boilers without a single accident, and only noticed that I was getting nervous. Suddenly without warning I was taken sick, and in less than a week I was prostrated. I had the best of physicians, I grew gradually worse, and at the council of doctors, they said I had nervous prostration, and had destroyed my whole nervous system and would never be able to be up again. They said I had worn myself out by the long nervous strain caused by watching and worrying about the machinery. For three long years I was unable to move from my bed without assistance. The doctor said I had locomotor ataxia, and would never be able to walk again.

"The pains and suffering I experienced during those years are almost indescribable. My wife used to put eight or ten hot water bags around me to stop the pain. Those that came to see me bid me good-bye when they left me, and I was given up. The doctors said nothing more could be done for me. 'We tried every known remedy, and my wife kept reading the articles about Dr. Williams' Pink Pills for Pale People to me. Finally she said they only cost 50 cents, and she wanted to know if I would try them. To please her I consented, and the first box gave me relief. I continued to use them for about two years before I could get strength enough to walk. It came slow but sure, but what I am to-day is due wholly to Dr. Williams' Pink Pills for Pale People.

"I am nearly seventy-five years old to-day, and there is not a man in the whole city that can kick higher or walk further than I can to-day. If any one has locomotor ataxia that reads this, let them come and see me to-day. Can you tell me a man to-day in this big city that can do better than that?" said Mr. Crockett, as he kicked the reporter's hat, which was held high above his head.

"Dr. Williams' Pink Pills for Pale People made me what I am to-day. I only wish I could persuade others to do as I did, and take them before it is too late."

(Signed) "JAMES CROCKETT."

Before me, a Notary Public, personally appeared James Crockett, who signed and swore to the above statement as being true in every particular.

ROBERT E. HULL, JR., Notary Public.

Dr. Williams' Pink Pills for Pale People are sold in boxes (never in loose form) by the dozen or hundred, and the public are cautioned against numerous imitations sold in this shape at 50 cents a box or six boxes for \$2.50, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Company, Schenectady, N. STARTLING TESTIMONY.

Given in the Case of Luetgert, Chicago's Sausage Maker.

HIS WIFE WAS SEEN ON MAY 3

So Declare Three Witnesses From Kenosha, Wisconsin, Who Identified Her Picture as That of a Woman they Met that Day.

A VERY BADLY MIXED UP CASE

CHICAGO, Ill., September 23.—To-day's proceedings in the Luetgert trial were the most remarkable that have occurred within the three weeks. In the face of the sensational circumstantial evidence that has been produced to prove that Mrs. Luetgert met death in her husband's sausage factory on May 1, three witnesses testified to-day that they saw the woman alive on May 3 and 4. One of these witnesses talked to her and believed from a description and a photograph of Mrs. Luetgert that the woman he saw was Mrs. Luetgert. This witness was Matt J. Sholey, a bar-keeper at the Hotel Maple, Kenosha, Wis. He said he saw a strange woman at the Hotel Maple on the evening of May 3. He talked with her nearly ten minutes. She asked to be directed to the farm of one Mueller in the neighborhood, but as no one seemed to know of such a person, the woman left on the following day. He described her general appearance and her clothing and identified a photograph of Mrs. Luetgert as the woman he saw. On cross-examination by State's Attorney Deenen, Witness Sholey at first fixed the weight of the woman he saw at 130 or 140 pounds. Then he hesitated—said he had got mixed up—and remarked that the woman weighed 115 to 118 pounds, which was about Mrs. Luetgert's weight. This hesitation and correction was made much of by the prosecution which intimated that it indicated that Sholey had forgotten the weight that probably had been told him at first.

Policeman Henry Feldshaw, of Kenosha, Wis., testified that he saw a strange woman in the police station of his town on May 3. The witness said he afterward saw the woman at the Hotel Maple and the following day at the railway station. He described her as a blonde and said she wore a sailor hat and slippers. One of the slippers she had worn was found in the police station after she had left. The witness identified the picture of Mrs. Luetgert as closely resembling the woman he saw.

William G. Granston, a clerk in the Grant hotel, Kenosha, identified the photograph as the picture of a woman he saw in his hotel and remained ten minutes and left. He described the woman and corroborated the evidence of the other witnesses.

Emma Schimpke came into the court room in the afternoon to hear Rose Cleich impeach her evidence on Wednesday. She was fighting mad when she heard herself made out a false witness. Attorney Phalen discovered her presence in the room and called her to the witness stand.

When asked if she had not told Rosa Cleich she had lied, the witness replied: "I don't remember."

"Did you not tell Harry Fielder you lied when you said you saw Mr. and Mrs. Luetgert May 1?"

"I don't remember."

"Did you not tell Rosa Cleich you did not see Mr. and Mrs. Luetgert the night of May 1?"

"I may have said so."

Mrs. Mattie Sherrer, the last witness of the day, testified positively that Emma Schimpke told her that the testimony the Schimpke girl had given on the witness stand was untrue.

Barn Burned in Brush Valley.

Early last Tuesday morning the large bank barn on the farm of David Meyer, four miles east of Rebersburg, was totally destroyed by fire. 600 bushels of wheat, 400 bushels of oats, 60 bushels of rye, 3 bushels of timothy seed, 43 tons of hay, a clover hatter, one-horse wagon and two sheep were burned in the building. It was insured for \$900.

It is not known just how the fire originated. Oliver Stover, a driver for the Coburn creamery, kept his team in Mr. Meyer's barn and before day-light that morning he went out to hitch up. Hanging his lantern on a peg behind the horse, he started to grease his wagon. When he returned fire was scattered about in three of the stalls. The lantern had either exploded or a horse had kicked it down. Stover gave the alarm as quickly as possible, but the fire spread so rapidly that it was impossible to save the barn, so attention was paid to rescuing the stock and implements.

"What does W. J. Bryan say now? He tries to explain that silver and wheat are on diverging lines because of a famine abroad. Only a few states are interested in silver mines and the price of silver. Compare the few mine-owners with the million of farmers and wheat growers, who are interested in the other side of this question."—From Senator Hanna's speech, on the opening of the Ohio campaign, Sept. 11th.

Gold Coming This Way.

LONDON, Sept. 23.—The steamer Saale, which left Southampton yesterday for New York carried \$1,000,000 in gold, destined for the National City Bank of New York. It was withdrawn from the Bank of England, and the National City bank has \$500,000 more coming from Berlin. These are the first shipments of gold made this fall.

New York, Sept. 23.—The officers of the National City bank said yesterday that the gold was engaged in the regular course of exchange business for the settlement of balances. They added that it was quite possible for exchange bankers to have special advantages in the purchase of exchange or gold bullion which would give them an opportunity to import gold, and that it was natural that an opportunity to import gold would be taken advantage of. The inference to be drawn is that at the present rate of exchange here and with the present prices of gold bullion abroad there is no profit in the importation of gold.

"There is no halting in the advance. Business grows better in all ways, for while its speculative end breaks conspicuous gamblers for a decline, a steady increase in production, in working force, and in the power of the people to purchase is the feature which overshadows all others. Reports of New York trades unions show an increase since one year ago of 34 per cent. in the number of men at work, and a similar increase among men in a like position throughout the country would exceed 340,000, while every week adds many establishments to the active list. The coal miners' strike has disclosed such facts and brought to light such differences that work will probably be very soon resumed by a large share of the men. The farmers are helped by higher prices for wheat, and while Western receipts do not show that they have marketed a tenth of their crop, assurance of handsome profits to come prepares them to buy liberally hereafter. Because of this and the increase of hands at work dealers throughout the country have started to replenish stocks, which is the great force at present operating in manufactures and trade, though distribution by retail trade has greatly increased. A gain of 12 per cent. in one month of the output of pig iron—from 165,378 tons August 1 to 185,506 September 1—with knowledge that half a dozen other furnaces are preparing to resume, and that unmet stocks have been reduced 14,440 tons weekly in August, indicating a consumption of about 190,000 tons, more than explains the moderate advance in the prices of finished products, averaging but 6 per cent. since the lowest point, August 12. Wheat has risen 5 cents the past week, not in a flurry, but in answer to the daily increasing foreign demand. Though reports of the crops now almost wholly out of danger indicate a yield never surpassed but once, foreign accounts still strengthen the belief that the deficiency abroad will be about one hundred million bushels more than usual, and meanwhile reports indicate that less corn than was expected will be available for export."—From Dun's Review, Sept. 11.

She Cannot Become a Lawyer.

West Chester, Pa., Sept. 22.—It is doubtful if Miss Isabel Darlington, daughter of ex-Congressman Smedley Darlington, the first woman who ever passed examination for admission to the Chester county bar, will ever get the opportunity of practicing in the local courts unless her brother-in-law, Congressman Butler, relents. The examining committee of the Bar association is composed of Capt. R. T. Cornwell, John J. Pinkerton, J. Frank E. Hause, Alfred P. Reid and Congressman Thomas S. Butler. The families of Congressman Butler and ex-Congressman Darlington, became involved in a disagreement, since which time they have not been on speaking terms. So Congressman Butler will not certify to her qualifications, and this effectually shuts her out.

Danville's Police Chief Suicides.

Lafayette Van Gilder, chief of police of Danville, committed suicide at his home early Friday morning. He was found dead in bed at 5 o'clock in the morning with a bullet hole in his head. The revolver with which he did the terrible crime was found lying on the bed beside the dead body. Mr. Van Gilder witnessed the Pennsylvania-Bucknell football game at Lewisburg Wednesday, and returned home in good health and in an apparently cheerful frame of mind. No cause except that he was in some trouble or other with a girl in Danville can be assigned as the cause of this rash deed.

THE CAPITOL BUILDING.

A Lancaster County Judge Takes a Hand in the Game.

THE COMMISSION RESTRAINED

Architect James H. Warner, of Lancaster, Asks for an Injunction That Will Hold the Commission to the Terms of Law.

WHAT GOVERNOR HASTINGS SAYS

LANCASTER, Pa., September 22.—Governor Hastings, Auditor General Mylin, State Treasurer, Haywood, President Pro Tem McCarrell, of the senate, and Speaker Boyer, of the house, comprising the state capitol building commission, have been restrained by preliminary injunction issued by Judge Livingston, at the instance of Architect James H. Warner, of this city, from adopting any design for the erection of the legislative building at their proposed meeting on September 20, 1897, except in one of the eight designs selected by the board of experts to whom that duty was assigned, and the writ enjoins that the prize of the competition, the choice of a supervising architect for the building, shall not be awarded except to the author of one of the eight selected plans.

Governor Hastings and his co-defendants were constituted a commission by the last legislature on the erecting of a new capitol building. The act provided for a board of experts to examine all plans submitted and to select from them eight which they considered best, and to number them according to their preference.

The commission, by the terms of the act was to select one of those eight. The first choice of the experts was found to be the plan submitted by James H. Warner, of Lancaster, but after several meetings of the commission all plans were rejected and returned to their authors, and an invitation issued for new plans to be submitted on September 29. This action was opposed by Governor Hastings, but he was out-voted by his fellow members. Mr. Warner proposes to fight this decision of the commission, and says this is the first gun. An answer to this bill in equity is required to be filed in fifteen days from date of service.

HARRISBURG, September 22.—Governor Hastings was confined to his room at the executive mansion to-day with a very sore throat. His physician, while not fearing pneumonia, required him to keep his bed. A representative of the Associated Press called on the governor this evening and inquired whether he had anything to say about the proceedings entered to-day in the Lancaster county courts against the capitol building commission.

"I have not seen the bill in equity filed in the Lancaster county court and know nothing of its contents," the executive replied. "The attorney general called on me this afternoon and informed me that legal proceedings had been instituted and I requested him to take charge of the case so far as it affected me."

"Have you had any consultation with your associates on the capitol commission in addition to these proceedings?"

"No, I have had no communication with any of them on the subject since I entered my protest against setting aside the original agreement for the selection of an architect."

"Have you heard the story that the other members of the capitol commission intend to keep out of Lancaster county to avoid service of process?"

"I have not, and do not believe it."

"What do you suggest as the best way out of the tangle into which the commission seems to be getting?"

"Stand by our plighted faith to the people of the state; carry out the terms of the programme as originally agreed upon; stop lawing and commence building; give the state one hundred cents' worth of capitol for every dollar appropriated. There is yet time to complete the building before the next meeting of the general assembly, but there is not a day to spare."

To Cure Constipation Forever.
Take Cascarella's Candy Cathartic. 10c or 25c. If C. C. C. fail to cure, druggists refund money.

Shake Into Your Shoes

Allen's Foot-Ease, a powder for the feet. It cures painful, swollen, smarting feet and instantly takes the sting out of corns and bunions. It's the greatest comfort discovery of the age. Allen's Foot-Ease makes a tight-fitting or new shoe feel easy. It is a certain cure for sweating, Callous and hot, tired, aching feet. Try it to-day. Sold by all druggists and shoe stores. By mail for 25c. in stamps. Trial package FREE. Address: Allen S. Olmsted, Le Roy, N. Y.

Not Mr. Butterworth.

WASHINGTON, Sept. 22.—Commissioner of Patents Butterworth has been in Washington all this week, at his office in the day and at his home in the evening. Through some cause, wholly baseless and unfounded reports have been in circulation that he had been assaulted at Atlantic City by men who attempted to rob him.

PUBLIC SALE OF HIGH BRED CATTLE.

Held at State College, Wednesday Afternoon—A List of the Cattle and the Prices They Brought.

The Public Sale of high bred stock, which took place on the State College Farm last Wednesday, was well attended and the stock buyers from Columbia, Bedford and Westmoreland Counties proved to be lively bidders, who made it very interesting for Centre County buyers. The first cow sold was a very fine Hereford with twin calves by her side. This cow gives forty-five pounds of milk per day and the principal bidders were J. I. Barley, of Morrison's Cove Stock Farm, Bedford county, Pa., and our fellow townsman, F. W. Crider, who secured the prize for \$80.50. Mr. Barley stated that the cow and calves were worth \$100.00 at his farm. The next sale was

"Chub"—An Alderney twelve years old with a butter record of three hundred and seventy pounds per year sold at \$28.00.

"Laura"—A red cow formerly purchased of Dr. Laurie, sold for \$53.50.

"Flora"—A grade Short-Horn sold for \$41.00.

"Siss"—Red Short-Horn with calf sold for \$55.00.

"Vesta"—Red Short-Horn, fourteen years old, registered, sold for \$40.50.

"Mignonette"—The third short-horn registered, thirteen years old sold for \$49.

"Julia"—Gurnsey five years old, fresh in eight days sold for \$60.00.

"Gerty"—Red and white Gurnsey, six years old, sold for \$40.50.

"Ella"—Short-horn grade, eight years, old sold for \$52.00.

"Lunkhead"—Jersey cow with calf, \$30.

"Fannie"—Red short-horn grade, six years old, \$39.00.

"Dorcas"—Strawberry roan sold for \$35.50.

"Royal Regra Pages 5th"—Alderny, deer color, four years old, \$55.50.

"Black Jersey Cow"—Old, \$29.00.

"Emma"—Fawn color, Gurnsey heifer grade, three years old sold for \$34.00.

"Sue"—Gurnsey grade, three years old sold for \$40.00.

"Annie"—A heifer three years old, bred from Dr. Laurie's cow, due March 28, '98, sold for \$39.00.

"Roan"—High grade short-horn, three years old, due Jan. 12, '98, sold for \$30.00.

"Helen"—Short-horn grade, three years old, due May 24, '98, sold for \$38.50.

"Chuck's Heifer"—One year old, fawn color, \$25.50.

"Sis' Heifer"—Red short-horn and Jersey one year old, sold for \$15.00.

"Barbara's Heifer"—Short-horn and Jersey grade, one year old, sold for \$20.00.

"Dora's Heifer"—Gurnsey and Jersey, one year old, sold for \$27.00.

"Louisa's Heifer"—Grade Gurnsey, one year old, sold for \$27.50.

"Gerty's Heifer"—One year old, \$14.00.

"Vesta's Heifer"—Registered short-horn, five months old, color red, sold for \$20.00.

"Stall Sp. Helier"—Fine bred Jersey bull three years old, \$35.00. This was the best bargain sold.

The following cows were from the barn at the Experiment Station.

"Primrose"—Jersey cow, nine years old, fresh Oct. 15, '97, butter record 442 lbs. per year, sold for \$42.00.

"Lilac"—Fawn colored cow, six years old, due Nov. 29, '97, butter record 339 lbs. per year, sold for \$50.00.

"Duffdel"—Grade Gurnsey about ten years old, due Oct. 4, '97, butter record 393 lbs. per year, sold for \$40.00.

"Lily"—Three-fourths Gurnsey, three years old, butter record 209 lbs., sold for \$51.00.

"Betsey"—Four year old heifer, half Gurnsey, butter record 318 lbs. per year, due Oct. 1, '97, sold for \$51.00.

"Victoria"—Short-horn and Gurnsey, three years old, due March 21, '98, butter record, 227 lbs. per year, sold for \$37.00.

"Alto"—Two years old, half Gurnsey, butter record of dam 524 lbs. per year, sold for \$38.00.

"Florence"—Three-fourth Gurnsey, two years old, \$35.50.

"Buttercup"—Two years old, butter record of dam 458 lbs. per year, sold for \$35.00.

"Stella"—Three-fourth Gurnsey, butter record 801 lbs., due Nov. 8, '97, sold for \$40.00.

"Daisy"—Short-horn grade, two years old due Feb'y. '98, butter record of dam 360 lbs. per year, sold for \$28.00.

"Lucy"—Half Blood, Gurnsey and Jersey, due April 4, '98, butter record 217 lbs., butter record of dam 311 lbs. per year sold at \$36.00.

Allen's Warlike Mood.

NEW YORK, Sept. 23.—President Ethan Allen, of the Cuban League of the United States, to-day issued the following address to members of the league:

"A year of patriotic work is about to end in grandest results. Last spring nearly every governor of this republic, at our request, backed by the legislature of his state, spoke for Cuban independence. Many hundreds of thousands of citizens, responding to the appeal of this league, have made it manifest that public opinion is on the side of the Cuban insurgents and hostile to their oppressors. Now the hour of emancipation for Cuba is at hand. The commanding voice of the nation has at last reached the executive. Although the delay has been much too long, still the retribution at hand will excuse past delinquency. Our minister in Spain, with a patriotic president behind him, will do that which shall soon end the murder, plunder and medieval tyranny in Cuba, preceding its certain entry into the list of free and sovereign states. This nation is ready with guns and men if necessary. Every member of this league should be alert to uphold the president in such a policy. Let all when the moment comes say to him: 'All divisions end at the water's edge.'"

Cereal Coffee Drinkers BEWARE!

If you have been deceived and tried one of the cheap bran substitutes now on the market, claiming to be the original and to have great food value, and you got a pound of poorly roasted bran for your 25c. and a poor, weak, sickish drink (what can you expect from bran), don't be discouraged but try Grain O. It's made from solid grain nicely browned an 2 pounds for 25c. Grain-O takes the place of coffee at the price. Get a package of your grocer to-day.

Church Dedication.

The new Christ's Union church at Hecla Park will be dedicated on Sunday afternoon, October 10th, at 2:00 o'clock.

Pastors from all denominations in the community have been invited to be present and it is hoped that the public generally will attend, inasmuch as it is a union church.

I will be remembered that this is the structure that blew down several years ago, when in the course of construction, severely injuring several school children who were playing about the building during their dinner hour. Mr. T. W. Dunkle's boy was hurt at that time.

How's This?

We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & Co., Toledo, O. We, the undersigned, have known F. J. Cheney for the last 15 years, believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm. West & Truax, Wholesale Druggists, Toledo, Ohio.

Hall's Catarrh Cure is taken internally acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price 75c. per bottle. Sold by all Druggists.

Hall's Family Pills are the best.

The Attendance Large.

COLUMBUS, O., Sept. 22.—Fully 20,000 visitors were in this city to attend the opening ceremonies of the 42d annual convention of the German Catholic Central Society of North America. About 500 delegates are in attendance from all the principal cities of the country, and the convention will continue in session four days. The parade was a large demonstration, and was participated in by fully 5,000 persons.

What do the Children Drink

Don't give them tea or coffee. Have you tried the new food drink called Grain O? It is delicious and nourishing and takes the place of coffee. The more Grain-O you give the children the more health you distribute through their systems. Grain-O is made of pure grains, and tastes like choice coffee but cost about 1/4 as much. All grocers sell it. 15c and 25c.

Don't Tobacco Spit and Smoke Your Life Away.

To quit tobacco easily and forever, be magnetic, full of life, nerve and vigor, take No-To-Bac, the wonder-worker, that makes weak men strong. All druggists, 50c or \$1. Cure guaranteed. Booklet and sample free. Address: Sterling Remedy Co., Chicago or New York.

JOS. HORNE & CO.

We ask every woman who is looking for silks to write us for samples of the fancy Taffetas and Plaids we are selling at 65c, 75c and \$1.00 a yard. We claim these silks are wider, better quality and prettier in pattern than any silks you ever bought at those figures. Let the samples prove the truth of this claim. State colors and patterns desired as nearly as you can.

If it is Dress Goods, test our claims of superiority in the lines at 45c to \$1.50 a yard. It costs nothing to find out about these things, why not do so? Mention this paper when you write.

PITTSBURG, PA.

An Infamous Crime.

SHAMOKIN, Pa., September 22.—Isaac Leipley, a farm worker of Shamokin township, was arrested on charge of having entered the barn of Dairyman M. L. Sober, at Elysburg, last night and poisoned two cows, placed a quantity of paris green in the milk cans, cut all the harness to pieces and also with having removed the hub bolts from the wheels of the wagons. When Mr. Sober discovered the crime this morning he borrowed a wagon and harness from a neighbor and then sent his man to the city with the milk, not knowing that it had been poisoned. Two hours later the farm girls found traces of poison in the milk cans and George Sober jumped on his bicycle and started for Shamokin, six miles distant, at a great speed to warn 200 families on his father's route not to use the milk. On reaching Shamokin he notified the authorities and a number of men were hurried over the route with the terrible warning.

So far as known they were successful in preventing the use of the milk. Leipley was given a hearing before Justice Rowe this evening and was committed to prison. He lives near the Sober farm and was discharged by Dairyman Sober some time ago.

The cut harness was covered with blood and drops of blood were traced to Leipley's home. When arrested both of his hands were badly lacerated. Both of the poisoned cows died this afternoon. Paris green was found mixed with their bran.

Awful Experience With Heart Disease.

That Dr. Agnew's Cure for the Heart works like magic and cures is proven by the testimony of Mr. L. J. Law, Toronto, Can. "I was so sorely troubled with heart disease that I was unable for 18 months to lie down in bed lest I smother. After taking one dose of Dr. Agnew's Heart Cure I retired and slept soundly. I used one bottle and the trouble has not returned."—5.

Sold by J. N. & S. Krumrine.

"ANOTHER ENCOURAGING symptom is that the financial medicine men are now explaining in a low tone of voice why what they said in such loud tones last year was not so. This is the prelude to the utter silence which will fall upon them in due time, a silence which will be the signal that the world has settled one other financial problem in the only way it can be settled, and that is in the minds of the people."—From Speaker Reed's answer to Bryan on wheat and silver.

Educate Your Bowels With Cascarella's Candy Cathartic, cure constipation forever. 10c, 25c. If C. C. C. fail, druggists refund money.

Teachers' Institute.

Belleville is sure to have the Teachers' Institute, although it was through a good bit of work that we secured it. But we would go through the same again if we thought it was to be taken from us. Some of the fine entertainments we will have here that week will be "Sam Jones," "Si Perkins" and General Jordan." All three of these are renowned men and have gained great reputations.

No-To-Bac for Fifty Cents.
Guaranteed tobacco habit cure makes weak men strong, blood pure. 50c, \$1. All druggists.

The Bellefonte Republican

TO CORRESPONDENTS.—No communication published unless accompanied by the real name of the writer. Correspondents should write upon but one side of the paper and avoid the use of pale or fancy inks.

EDWARD T. TUTEN.

Local Department.

—The Howard iron and tool plant will soon be placed in operation.

—The tank for the new glass works in Lock Haven is to hold 5,000 lbs. of glass.

—John T. Stuart has been appointed postmaster at State College.

—Mart Garman's fast pacer, Dollie Spencer won again Wednesday at Newport, Pa.

—Dennis Luse is erecting buildings for a saw and planing mill and a machine shop in Millheim.

—The renowned Park Sisters passed through Bellefonte enroute to Tyrone Saturday morning.

—Salvatore Di Grazia, the famous banjoist, will give a recital for members of the Bellefonte Y. M. C. A., Monday evening, October 4th.

—Col. Wilbur F. Reeder, the new deputy attorney general, does not intend to let his duties at Harrisburg interfere with his legal practice in this place.

—An exchange tells of a bicycle crank who reads all the coal strike dispatches that have a Wheeling date line on them.

Lyons & Co. have remodeled their store through and through and the improvement certainly makes a big change.

—There will be a box social held at the Evangelical church Friday evening October 1st. Ice Cream, Cake and coffee will be served. All are cordially invited to attend.

—Wednesday Alfred Hassinger received word that a pension of \$10 a month had been granted him with arrears. This was secured through the influence of J. Howard Olliger.

—Bellefonte Lodge I. O. O. F. paid a visit to Howard lodge, on Wednesday evening, and were entertained at a fine banquet at the Syracuse House. They report having had a fine time.

—Rev. A. A. Black, of Boalsburg, preached in the Bellefonte Reformed church Sunday afternoon and evening, and at Zion on Sunday morning.

—Game of all kinds is very scarce in the Marsh Creek ridges and the Allegheny mountains, except foxes which are plentiful for the farmers poultry yards and pheasants.

—Rev. E. E. Hoshour, pastor of the Lutheran church of this city, has declined a call to preach at Heilam, Pa., Lutheran church and will remain in this city where he is highly respected and appreciated.

Have you earache, toothache, sore throat, pains or swelling of any sort? A few applications of Dr. Thomas' Electric Oil will bring relief almost instantly.

—When Carnegie purchases the Bellefonte Furnace and The Valentine Iron company starts their works you will first hear of it in the REPUBLICAN. All other stories in regard to those works are unreliable.

—Sheriff Martin and 73 of his deputies were held Wednesday at Hazleton on the charge of Murder. Charles and Herbert Houck formerly of this city were among the number.

—Farmers' institutes for Centre county will be conducted by the state agricultural department at Spring Mills, on Monday and Tuesday, Dec. 13th and 14th, and at Hublersburg, on Wednesday and Thursday, December 15th and 16th.

—Burdock Blood Bitters entirely cured me of a terrible breaking out all over my body. It is a wonderful medicine. Miss Julia Elbridge, Box 35, West Cornwall, Conn.

—In some of our town papers it was stated that Miss Emily Alexander lost a diamond ring last week. It was not a diamond but an emerald and anybody finding and returning it to her will be liberally rewarded.

On Sept. 16 the birthdays of Mr. and Mrs. William Robb of Romola took place, Mr. Robb being 56 years old and Mrs. Robb passing her forty-ninth milestone. On that occasion their sons, John, Charles and David, surprised their parents by presenting them with a parlor suit.

Mr. Bogie, superintendent of the Iron and Tool company at Howard, reports everything there in good shape, he having in his employ more than 20 men and will employ several more men from Bellefonte as soon as he can get more houses ready for occupancy.

—The public sale of blooded dairy cattle at the Pennsylvania State College, on Wednesday, was well attended and high prices prevailed. Forty-one head were sold at an average price of \$42. F. W. Orlider, of this place, bought the fine Ayrshire cow with twin calves at her side, having paid \$80.50. Some of the graded heifers sold as high as \$51.

—Mr. Chas. Hardsock of Coleville was made happy Friday morning when his wife presented him with a bouncing baby boy. Congratulations are now in order.

—John Smith youngest son of Peter M. Smith of Cherry Alley, while out gathering hickory nuts fell off the tree and received a bad cut on his head and was hurt inwardly.

—Quite an honorable crowd of gentlemen were arrivals in Bellefonte on Saturday. They were Hon. P. Gray Meek, Wm. P. Humes, Col. Jack Spangler, Andrew Brockerhoff, and Gov. D. H. Hastings.

—We are sorry to state that little Mary Barry is quite ill with diphtheria at her home on Lamb street as the law compels the home has been quarantined. We extend our sympathy to the family and hope she will speedily recover.

For Itching Piles, irritation of the genitals, or itching in any part of the body, Doan's Ointment is worth its weight in gold. No matter how long-standing the trouble, Doan's Ointment will not fail to give instant relief.

—S. V. Hosterman, captain of the Franklin and Marshall college football eleven for this season, the young man whose picture was published in the New York World on Monday, is a son of Dentist G. W. Hosterman, of Centre Hall.

—During the wind storm Thursday night a brick blew off the chimney of the Potter House annex, in Philipsburg, and fell on Expressman George Sanford's head. An ugly wound, several inches long, was made on the top of his head.

—Joseph Bros. are always making improvements around their store. They are now fitting up their basement into a fine store room. It has been cemented and large shelves put in, and when finished it will be as cozy and nice as a parlor.

—Harry C. Zimmerman, who lives near Pleasant Gap, has purchased two Birdsell No. 1, Monitor clover hullers from McCalmont & Co., one of them will be taken into the north side of Benner township, Patton and Half Moon townships; and the other one into the south half of Benner township, Spring and Walker townships. This will prove a great accommodation to the farmers who have clover seed to hull.

—Clearfield county has a curiosity in the shape of a township, within whose borders there is not a church, school, store, saloon, minister, justice, school teacher, doctor, lawyer, carpenter, blacksmith shop, postoffice or a two-story house. None of the inhabitants of the township has ever held office, sat on a jury or been in a criminal action. The people of that township, if any live there, are certainly not of this earth.

—Isaac Koble, of Milton, was shot in the body during the third day of the battle of Gettysburg July 3, 1860. The surgeons failed to locate the ball, but in the course of time the wound healed. Several weeks ago a large carbuncle appeared on his back and when it was lanced the other day the bullet, which had been received more than thirty-four years ago, worked out.

—A few months ago Allen G. Rumbarger, one of our most exemplary young men, secured work in the wholesale shoe house of Kern, Lauderbach & Co., Philadelphia. We are pleased to learn that he has been so soon promoted, he now being one of the clerical force of the firm. Allen is a fine penman, a correct accountant, a quiet, unassuming young man, and we are glad to learn that the firm he is with appreciates these qualities in him by giving him a desk. We wish you abundant success Allen.

—The 23rd annual gathering of the Sunday School workers of Pennsylvania associated in the Pennsylvania State Sabbath School association, will occur at Harrisburg, October 12-14. The program is very full and very interesting; the topics being of a practical character and valuable to all who are interested in Sunday school work. The closing will be devoted mainly to addresses; one by Mr. Wm. Reynolds, Field Secretary of the International Sunday School Association, and the other by Rev. Kerr B. Tupper, D.D., of Philadelphia. Send early to the General Secretary, C. J. Kephart, D. D., Annaville, Pa., for full program of the Convention.

—It is expected that over one hundred graduates from the Normal Department will be awarded diplomas at the Annual Convention of the Pennsylvania State Sabbath School Association to be held October 12-14, at Harrisburg. An address will be made by Prof. H. U. Koop, Ph. D., in conferring the diplomas. This will occur on Wednesday evening, October 13, and will be an occasion of general interest to the public at large as well as the graduates. Dr. Schaeffer, of New York, will make an address on the same evening. Programs containing full particulars can be obtained from the General Secretary, Dr. Kephart, Annaville, Pa.

—The old Rothrock property was purchased on Monday afternoon by Col. Edward Pruner.

—Chas. Kurtz played the part of a hero Wed. when he headed off a big drove of sheep from scattering over the hills of Bellefonte.

—A man by the name of Carter, from Philipsburg, was brought to the Bellefonte jail to-day. By all indications the man is demented.

—The entertainment for the benefit of the Episcopal Sunday school which was to have been held at the residence of Mrs. Howard Lingle, on Thursday evening has been postponed.

—Wednesday morning, at about 8:00 o'clock, Mr. John L. Wilkinson, aged about 68 years, died at his residence on High street. Interment at Sprucetown, Pa., this Thursday morning.

Consumption is the natural result of a neglected cold. Dr. Wood's Norway Pine Syrup cures coughs, bronchitis, asthma, and lung troubles down to the very borderland of consumption.

—Monday evening Miss Nellie Rodgers gave a farewell party and dance to her numerous friends. Miss Rodgers has always lived in Bellefonte but since her brother Clarence is now employed in Pittsburgh, she and her mother will move there. We are sorry to lose this family, but it seems as though it must be so.

—An exchange says that the supreme court has decided that poultry running at large is wild game and the party on which they trespass has a perfect right to kill them. No man has a right to allow his chickens to run at large and bother his neighbors.

—The Wilkesbarre Times says: "A story is told on a school mat'am who does not live more than a thousand miles from Tunkhannock, who, having an inordinate dread of contagious diseases, sent a little girl home because she said her mother was sick. The next day the child presented herself at school with her finger in her mouth and little bonnet swinging by the string and said: 'We've got a little baby at our house, but mamma told me that it is not catching.'"

—On the afternoon of Thursday, October 14, at the 33rd Annual Convention of the Pennsylvania State Sabbath School Association at Harrisburg, there will be two conferences upon practical work; one to include primary workers, and the other to include teachers of adult classes. These conferences will be abundantly helpful, and all workers of the classes named should make it a point to be in attendance. Full program of the convention can be obtained by addressing the General Secretary, Dr. Kephart, at Annaville, Pa.

—The little town of Urbino, situated among the Apennines on the borders of Tuscany and Umbria, had the honor to be the birthplace of Raphael, and will next month dedicate a monument to the memory of that great painter of the Madonnas. An international exhibition of ancient and modern copies of the master's works is to be held, and the Italian Institute of Fine Arts will offer prizes in the form of medals in gold, silver and bronze.

—A meeting of the Curwensville Lumber Co., and of Hoover, Hughes & Co., was held here Tuesday, at the office of Judge Furst, at which were the following gentlemen. T. C. Himes of Osceola, Geo. W. Hoover and T. L. Emerson, of Philipsburg, W. V. Hughes of Altoona, J. C. Dunkle, F. Adyer and Col. E. A. Irvin of Curwensville, H. B. Humes of Jersey Shore, and W. P. Humes of Bellefonte. The two latter with Judge Furst representing the estate of the late E. C. Humes.

—Bellefonte has in it quite a number of the finest kind of young men, you may go all over Pennsylvania and you would not find a more congenial crowd of boys anywhere. One we will mention in today's issue and the others sometime again.

Everybody in Bellefonte knows Gust Heverly, how in the last few years he has won a character for himself, that he can feel proud of. Gust has been employed now, over a year as a clerk in Mr. Powers shoe store and while there he has won many friends. He is also quite an expert at trimming windows, as he has already shown his ability in that line, in trimming his show windows with this fall's goods.

We would like to also make mention of the beautiful windows at Lewin's store, they were trimmed by Louie Fabian the model window trimmer.

A Serious Burn.

About four weeks ago Mrs. Herbert Bartley was carrying some hot water down to the basement and in some way the bucket or whatever she had it in upset and the contents all fell on her right limb scalding it very much. It got almost well when she was caught in the storm a few weeks ago and took cold. It settled in this injured limb and now she is suffering severe pain from it.

PERSONAL PENCILINGS.

Gov. D. H. Hastings left Wednesday for Harrisburg.

Mr. Harry Brew left Wednesday for Pittsburgh.

Mr. Geo. Brew was an arrival in Bellefonte Wednesday.

Miss May Pratt, of New York city, one of the finest trimmers that Mrs. Gilmore could find to suit her, arrived in Bellefonte Monday and will assist Mrs. Gilmore in her Fall and Winter work.

Mrs. Hastings, who lives on North Spring street, is lying very low at her home. She is gradually growing worse and there seems to be no hopes for her recovery. She has had an attack of LaGrippe.

Heckman Kellerman, who has passed through a long siege of typhoid fever, is slowly recovering. Hick is a boy who wins many friends and we are all glad he is doing so well.

Edward McGinnies left Tuesday a.m. at 6:30 for Philadelphia where he will enter an office of the Atlantic Refining Co. Edward is a bright and congenial young man and we wish him lots of success.

Messrs. Kriby A. Dick and William G. Warfel, two of Huntingdon's fine young men were pleasant callers at our office Tuesday. These young men rode over from Huntingdon on their bicycles, a distance of about fifty miles.

Thomas Greninger, the efficient young clerk in Samuel Lewin's clothing store, spent Sunday and Monday (as it was a holiday) in Lock Haven. Tom, you surely must have a mortgage of some kind down there and if you don't stop going down there will be "Furry" to pay.

Mr. Geo. Hazel is not going to get married yet awhile, but it won't be long though, so he says. George is one of the finest, best looking and most congenial young men in Bellefonte, and any young lady that gets him may feel proud that she has won a man like him. Monday being a holiday George visited friends in Millheim and Madisonburg.

Mrs. Rosa Loeb who has been visiting her many friends in Bellefonte for the last few months, left for Danville to-day Bellefonte at one time was Mrs. Loeb's home and she feels as though it is nearer and dearer to her than any other town or city in Pennsylvania.

Mr. Paul St. Peter, secretary of the Glass Workers Association, of the United States, and Mr. G. L. Cake, President of the National Flatteners and Cutters Association of Glass Workers, were here last week in the interest of the cutters and flatteners, who are not satisfied with the scale as adopted by the L. A. 300, who expect to start our glass works on their scale.

Mr. James Schofield returned Wednesday, from Philadelphia.

Miss Rosa Anderson, of Williamsport, is visiting friends in this city.

Mr. and Mrs. Murray Andrews, of Bellefonte, are visiting friends in Philipsburg.

Mr. William Gray, Esq., is transacting business in the city.

Mrs. May VanAllen, and Miss Elizabeth Henderson of Montgomery Pa., were guests at the lovely home, of Mr. F. W. Criden on Linn St. They left for there home on Tuesday.

Hon. Wm. P. Duncan of Philipsburg was in Bellefonte on Tuesday shaking hands with his many friends. We may say, and we hope the Philipsburg people will pardon us for saying it, that Mr. Duncan has very near as many friends in old Bellefonte as he has in Philipsburg.

Mrs. Emil Joseph and Mrs. Samuel Wallach, a sister of Mrs. Joseph's, left on Thursday evening for Philadelphia and New York, where Mrs. Joseph will spend a month or so with Mrs. Wallach in the latter named city.

Miss Lizzie Daly of Washington city, who was a guest of the Hon. John A. Daly of Curtin township, this Fall, has returned to her home, where her brother, Frank, and herself carry on an extensive business, Miss Daly being the bookkeeper and correspondent for the house. She expressed her gratification with her visit and was greatly delighted with the wild mountain scenery of the northern part of this county.

GLASS WORKS RESUMES.

The First Blowing Took Place To-day at One O'Clock.

The Bellefonte co-operative Glass Co. started up their works Wednesday in full blast with bright prospects for the future. The company filled all the pots in the factory Tue. night, and the first blow of glass was made Wed. afternoon at one o'clock. During the summer season the plant has been enlarged to just double the size it was last winter, and now is one of the largest pot glass plants in the country. They will give employment to from seventy-five to eighty men and with good prospects for a very successful winter's blowing as they have a number of large orders already booked.

The factory would have started much earlier had it not been for a dispute as to what scale of wages they should adopt. Paul St. Peter, the secretary of the National Window Glass Workers' association who has been in Bellefonte the past week arranging the scale of wages for the co-operative glass company, said Tuesday "The Bellefonte company has signed the scale as prepared by the majority of the Western wages committee and endorsed by the national board of the Window Glass workers' association, and the company is now in position to start up at once with its full quota of workmen members of the association."

Sick With Appendicitis.

Mrs. Austin Bartley is lying very ill at her home with appendicitis. Her physician thinks probably he can get her through without an operation, which we hope he can.
